

OUR SCHOOLS

A REIGN OF TERROR EXISTS TIME OF TEACHERS TAKEN BY USELESS LECTURES AND MEETINGS

The introduction of Latin and German in the Seventh and Eighth grades of the public schools is looked upon as unnecessary studies and an imposition upon the teachers.

Another complaint of the hard-worked teachers, is the recent order forcing teachers to attend a meeting pay days or as soon as they receive their checks to attend some lecture of the superintendent.

Teachers are human, and they have obligations to look after as well as other public servants. After a teacher has worked the entire week he should be permitted at the close of the school week to attend to a little business of his own. But this is not the case, however. He must attend some lecture of the superintendent on a Friday or some meeting on a Saturday.

It is stated that a petition is in circulation among the citizens or parents whose children attend the Armstrong Manual Training School, asking them to express their approval or disapproval of the school. The duty of

The Supervising Principals
in the colored schools has been defined. The three colored supervising principals have been designated as follows: Dr. W. S. Montgomery has the marking of teachers from the first to the fourth or to the eighth grades, and Nolle has been designated a clerk to the two supervisors. This is a good position for Nolle. No doubt he will find time to attend to this line of work. He is no doubt the most unpopular supervisor in the colored schools. The general expression among the teachers is, "I taught today, but what I shall be doing tomorrow is a conjecture." This is the prevailing sentiment among the teachers.

Of course Congress will be asked to relieve the teachers of this uncertainty and reign of terror that seems to prevail in the schools, and more especially in the colored schools.

The mutual admiration meeting that was held at the residence of the assistant superintendent a few weeks ago, on which occasion a few quasi educators attended, is an evidence of the condition of unrest in the colored schools. The people will ask Congress to give them separate schools and their own officers, same as before. There is less progress in the colored schools now than ever before. The pupils are overtaxed; there are too many books, as well as too many studies. Many who leave the graded schools and enter the High and Normal Schools cannot spell correctly. A thorough English education is needed in the schools, and the only way to get it is a radical change in the school system.

REGISTER VERNON.

Register W. T. Vernon has been invited by the white and colored citizens of Durham, N. C., to be present at the preliminary public meeting of Dr. James E. Sheppard's new Christian enterprise which is to be the greatest institution among colored Americans in the United States. Dr. Sheppard is doing great work among the colored people in this country and there is no doubt that this enterprise will be the greatest monument in the world erected to the colored race.

Register Vernon is to be the orator of the occasion. From all reports the leading white citizens of Durham, N. C. are taking a personal interest in the work, and are especially interested in the coming of this great colored orator to the State. It is estimated that two thousand people will greet Register Vernon.

GONE TO REST.

The funeral of Mrs. Alice R. Dorsey, the wife of James Henry Dorsey, the mother of Charles H. Dorsey, sister of Mrs. Fenton Copeland and Mrs. Georgiana Williams, and the daughter of Mrs. Henrietta Dickson, took place from the Vermont Avenue Baptist Church, Monday, November 4, at 12 o'clock.

BALTIMORE AND OHIO EXCURSION.

Sunday, November 10.
\$1.00 Harpers Ferry and Martinsburg and return.
\$1.35 Berkeley Springs and return.
\$2.00 Cumberland and return.
Special train leaves Washington, Union Station, 8.15 a.m.

John Walker, colored, of Macon, Ga., was taken from the jail, riddled with bullets, and his body thrown into a log fire. He robbed two small boys (white) of seventy-five cents.

REPUBLICANS MEET. GRAND ARMY HALL FILLED. UNITED REPUBLICANS SOUND THE KEY- NOTE.

The meeting of the United Republican Clubs of the twenty-two old Republican Legislative Districts met in the main auditorium of the Grand Army Hall last Thursday evening. It was a representative gathering of white and colored Republicans, who met to adopt plans for the coming election of delegates in the District of Columbia to the next National Republican Convention. The full capacity of the hall was taxed.

The meeting was under the auspices of the W. Calvin Chase Republican Club of the District of Columbia, a club named for Mr. W. Calvin Chase in 1900, when he was elected one of the delegates to the Philadelphia convention that nominated the late President McKinley.

There was a large representation of ladies present to listen to the speeches.

At eight o'clock Attorney Thomas L. Jones, of the local bar, called the meeting to order, and introduced Rev. J. Anderson Taylor, of Trinity Baptist Church, who offered prayer, after which the chairman, Mr. Jones stated briefly the object of the meeting in an eloquent and pointed address, which will appear in full in the next issue of The Bee.

Addresses were then delivered by others, which will also appear next week. Music was furnished by the Howard University Young Men's Christian Association Orchestra. The committee on address and resolutions, through Mr. J. T. C. Newsom, reported the following, which was unanimously adopted:

The United Republican Clubs of the District of Columbia, representing the twenty-two (22) old Legislative Districts, now assembled in an edifice named for those heroes who made this nation great and the republic the foremost in the civilized world, to the Republicans of the District and the Republican voters of the country, Greeting.

We continue our allegiance to the grand old Republican party, firmly believing that upon its policies and principles depend our continued peace and prosperity—a prosperity the stability of which has recently been demonstrated in the checking of the flurry in the stock market and the banking world.

We believe this stable prosperity to be more the result of the wisdom and the righteousness of Republican principles, than to individual policy or direction, or to natural conditions. Upon its policies, also, depend the perpetual amity between the nations of the earth, and the mediation and arbitration of strifes that may exist between other nations.

But, while we credit our present happy material and domestic conditions to Republican policies and principles, experience and necessity demand that we give increased attention to the character of men we select for public office, believing that in this nineteenth century of political wisdom and advancement, men are often more important than measures, and principles more than parties.

We express our confidence in the wisdom and good judgment of the American people, and the expression of that wisdom at the polls, Tuesday, November 8, 1908, in no uncertain tone, which means confidence in the administration and the loyal representatives of the two legislative branches of our national government.

The standard bearers of the Republican party, who are to be selected by the ensuing National Republican Convention, should be men who, idealize the principles of the late lamented Lincoln, Garfield, Grant, Sumner, Conkling, Morton and Chandler. Upon the wisdom and judgment of the delegates however we rely upon the selection of candidates who will unite all Republicans, regardless of individual preferences.

To this end the Republicans of the United Republican Clubs beg to advise the National Republican Committee that a delegated convention would be more acceptable to the Republicans of the District than the primary system which has heretofore been the occasion of riots, debauchery and bloodshed. It is further suggested that no candidate for delegate be permitted to serve upon the election committee, which has been the cause of so much dissatisfaction among Republicans.

We believe in temperance, but let it be non-coercive, and with a due regard for personal rights and liberties.

Whereas, a deplorable condition, now amounting almost to demoralization, exists among the Republicans of the District; and

Whereas, this condition is due to the placing of Democrats in positions of honor and trust, to the exclusion of honest, faithful Republicans (which has

(Continued to Page 4.)

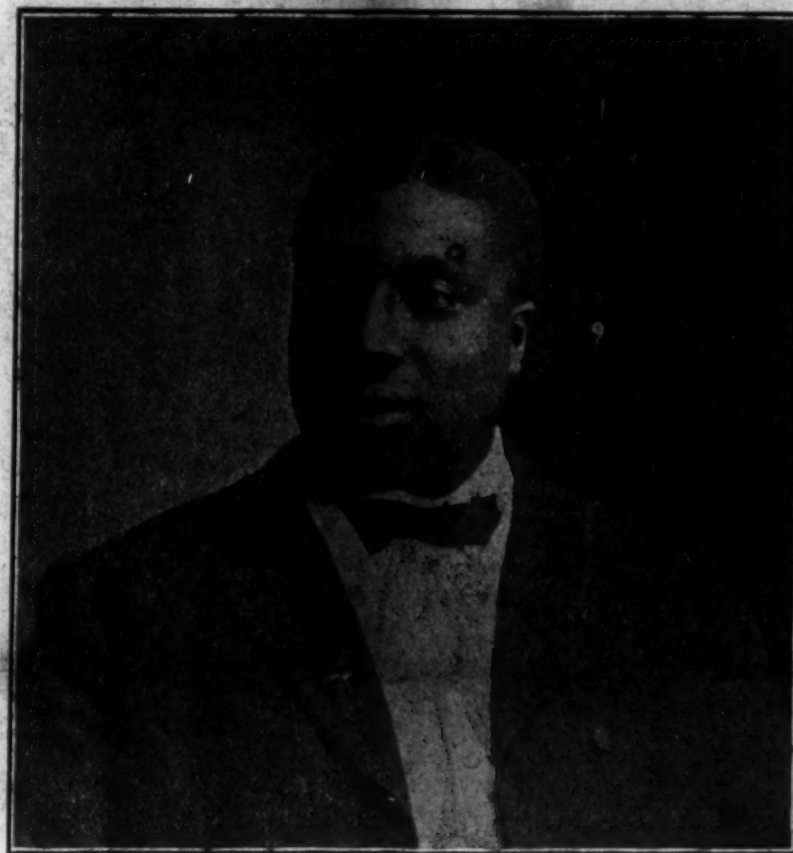

What I Saw And Heard

Teachers in the public schools find it quite different now than what they did in years gone by. The demand now is, the return of superintendent George F. T. Cook.

Rev. W. B. Johnson, pastor of the Second Baptist Church, must have been in need of speakers when he invited Bruce and Chancellor to address his Lyceum. I am confident that the colored citizens will give the men who declared the colored schools a bar to the white a cool reception and a rebuke to Rev. Johnson, who is inclined to honor the enemies of the colored people. All good citizens will remain away from the new apologetic foreman of the Second Baptist Church.

I want to congratulate my friends, Mr. Ralph W. Tyler on being the master of his office. He is the boss, and not his white deputy. He makes his own rules and he protects all clerks alike.

Uncle Joseph Cannon, Speaker of the

REGISTER W. T. VERNON.

House of Representatives. will be a strong factor in the coming National Republican Convention.

Well! Poor T. Thomas Fortune has been buncoed at last. He is no longer the journalistic star of the East. His enemies have buncoed him out of his years of labor and prestige. The Age is not what it used to be.

What the people want is a judge of the United States branch of the Police Court.

I am surprised to see so many advocates for prohibition and so few for human rights. The people of Washington are in need of protection from oppression. Whiskey is less dangerous than the shotgun, and prohibition advocates more dangerous than whiskey.

The Southern colored man should not be given a bureau appointment because he is always subservient to his white underlings. Compare Ralph W. Tyler with many of our Southern appointees. There is a great deal of manhood in the man from Ohio.

Now that President Roosevelt has decided not to become a Presidential candidate, it would be wise for the politicians to look out for a man. Senator Foraker is not a candidate, but I believe that he has a candidate in view. The colored Americans owe him a debt of gratitude, notwithstanding.

Discrimination in the several departments of the government continues to exist. Colored clerks are oppressed by the understrappers. We need strong men at the head of government and not toadies.

The colored citizen is a peculiar individual. He soon forgets and forgives the wrongs inflicted upon him.

The Democratic party offers no encouragement to the colored voter, hence he cannot afford to support that party.

The people of Washington will stand by Dr. Lucy E. Moten. They now believe that she is a victim of prejudice and jealousy.

The people are now in favor of separate schools with separate officers to govern them.

A good judge doesn't always look for guilt in a defendant. There are times when a defendant by accident happens to a misfortune. Judge Barnard is a model for all judges to follow.

I am of the opinion that Judges De Lacy and Cullen are two men whose

equals cannot be found. They have sense and judgment.

Dr. Atwood continues in poor health. He shall be glad when he is himself again. Rounder.

ITS FORTIETH ANNIVERSARY.

Invitations have been issued to the exercises in connection with the installation of Wilbur Patterson Thirkield, D.D., LL.D., as president of Howard University, and for the celebration of the fortieth anniversary of the founding of this institution, to take place November 14 and 15 next.

The installation will occur in the beautiful Rankin Memorial Chapel, on the campus, on Friday afternoon, November 15, at 2.30 o'clock. Justice Job Barnard, LL.D., of the District Supreme Court, president of the board of trustees, will preside and have general charge of the ceremonies of installation.

The speakers for the occasion who have given positive assurance of their presence, are as follows:

President Theodore Roosevelt, Hon. James Rudolph Garfield, Secretary of

Yer of Nashville, Tenn., a graduate of the Law School, class of 1872, and by the Rev. Dr. George Frazier Miller, an Episcopal clergyman of Brooklyn, N. Y., College class of 1888. Music will be furnished by the University Choir and Orchestra, and the occasion promises to be one of exceptional interest.

Alumni Reunion

The alumni of the university in all departments numbers about twenty-five hundred, scattered all over the world. Many of them occupy position of great prominence in Church and State and in professional life. Great numbers of them are teachers and heads of institutions of learning.

The exercises in connection with the Alumni Reunion will be held in the Memorial Chapel, beginning on Thursday evening, November 14. Addresses have been promised by the Rev. Amory H. Bradford, of Montclair, N. J.; and President John Hope, of Atlanta Baptist College, Atlanta, Ga.

On Friday morning the reunion proper will take place, presided over by Dr. Kelly Miller, president of the Alumni Association. Addresses will be delivered by the following graduates, representing the Theological College, Medical, Law and Normal departments; Dr. Joseph H. Jones, president of Wilberforce University; Dr. W. A. Sinclair, Philadelphia, Pa.; Dr. W. D. Crum, Charleston, S. C.; Prof. W. H. Richards, Washington, and Mrs. Rosa K. Jones, Richmond, Va.

NEWS OF ALEXANDRIA.

Alexandria, October 21.—The cases pending against Joseph Thomas, alias John Wright, in the Circuit Court of Alexandria, one for the murder of Jackson Boney, one for criminal assault on Annie Green, and one for assault with intent to kill upon Forest Gooding, were all nolle prossed and dismissed from the docket yesterday, and the curtain rung down upon the scene of one of the most remarkable criminal cases in the history of the old Commonwealth.

Crandall Mackey, attorney for the prosecution, stated to the court that, as Governor Swanson had seen fit to commute the sentence of death in the Risley case to life imprisonment, and as the Commonwealth had only one witness in the other cases pending, and did not know whether she would come to court or not, he had decided to ask for a nolle prosequi.

Thereupon James E. Clements, the attorney who has so valiantly defended Wright, stated to the court that he had come prepared to try these cases, and that in his judgment there was not a scintilla of evidence to convict the prisoner; that he was innocent of the pending charges, as he was of the charge upon which he stands convicted; that the Risley case heretofore tried was twice before the Supreme Court of Appeals of Virginia, and twice did two of the ablest judges of that tribunal, in strong and carefully considered opinions, declare that the evidence disclosed by the record was not sufficient to justify Wright's conviction, and these opinions alone were sufficient to influence the governor in granting a commutation, and in the eyes of all impartial citizens his conduct in doing so was worthy of commendation rather than censure.

The three additional cases against the prisoner, which were dismissed to-day, comprised the charges of murder, assault, and assault with intent to kill. Thomas was indicted for killing a Negro named Jackson Boney, for assaulting Annie Green, colored, and for attempting to kill Forrest Gooding. The prisoner, who has been in the county jail for more than a year, will shortly be conveyed to the State Penitentiary in Richmond.

THE BEE WOULD LIKE TO KNOW

If a certain bill had to be paid to Tuskegee before a certain appointment in the schools was made.

If a certain member of the Bar, but not a practicing attorney, was not interested.

If Congress will not have an opportunity to investigate a mess.

If a great deal of correspondence did not take place before a certain individual before the appointment was made.

If someone has not bit off more than he can chew.

If someone only knew what some other people knew.

If you want The Bee sent to your address, notify the office. Twenty cents per month; 50 cents for three months, and \$2.00 per year, in advance.

The Bee is the greatest race advocate in the United States.

Read The Bee if you want the news.

John Hill, colored, of Atlanta, Ga., received from the Carnegie Fund a bronze medal and \$500. He is the first colored man to receive from this fund.

GOOD WORK

FEDERATION OF CHRISTIAN WOMEN.

The Second Annual Convention of the Federation of Christian Women of the City of Baltimore and State of Maryland, at Leadenhall Street Baptist Church, Thursday and Friday, October 17 and 18 was indeed a decided success, notwithstanding the several conventions in different churches and Home Coming Week among the whites, our sessions were well attended. Quite every section of the city, and nearly all the churches, irrespective of creed, were represented. Effective work was done.

Resolutions asking for better facilities for the colored schools in rural districts, and for a legislative enactment prohibiting our women and girls from buying beer at the saloon were also presented. Thanks were also extended the Superintendent and Board of Public Schools for putting all of the colored schools in Baltimore under control of colored teachers and for the large appropriations made for new school houses and improvements to others.

About sixty organizations are now under control of the Federation and we hope at the next meeting to be able to report at least a hundred.

Able papers were read and discussed: "What Shall We Do with our Girls?" by Mrs. E. J. Truxon; "Our Nearest Duty," by Mrs. Pendleton, of Washington; "Shall Women Be Wage Earners?" by Mrs. Susie Love, Mrs. Helen Cooper and others.

Spirited discussions were made by Mrs. Belle, of Washington; Mrs. J. T. Jenifer and the president, Mrs. Mary Handy.

The Temperance Question was presented by Mrs. A. R. H. Miller, and discussed by Mrs. E. J. Cummings, Mrs. Basil, Mrs. Burke and Mrs. Harriet J. Hilliard.

The report of the organizer, Mrs. J. T. Jenifer, was fine. A number of neighborhood clubs, day nurseries, parents' meetings and entertainments, as well as instruction for the betterment of the condition of our boys and girls, were also presented.

The Empty Stocking and Fresh Air Club made their report through Mrs. Florence Owens. They have purchased a place of ten acres near Baltimore, as a summer country home for poor children.

Seven hundred dollars have been paid and plans are now on the way to equip it.

Mrs. M. J. Murphy, president, presented the needs of the Y. W. C. A. We have paid \$4,500 for our building, not owing one cent, and have nearly a hundred dollars in bank. We intend to erect a back building for a laundry plant.

Devotional exercises were led by Mrs. Edith Brooks, Mrs. Cornelia Anderson and Madame Cooper; Miss Jeanette Jones, pianist.

The Federation of Maryland voted to enter the National Federation of Christian Women.

Mrs. J. T. Jenifer was elected president; Mrs. A. L. McQuinn, secretary; Mrs. A. R. H. Miller, organizer and lecturer, 557 Presnam street, Baltimore, Md.; Mrs. Harriet A. Hilliard, chairman of the executive board; Mrs. E. J. Cummings, treasurer.

The Federation of Women of Baltimore is doing a great work for the up-building of the race. A great future is looked for for this organization, with such noble women at its head as Mrs. J. T. Jenifer, Mrs. A. R. H. Miller, Mrs. M. F. Handy, Mrs. Hearst, Mrs. Harriet Millard and others.

Miss R. E. Bell had the honor of addressing this noble body of women on last Friday night. She urged them to preach race unity among our people, and to come together and help the people who help us, particularly those who stand for justice—Hon. J. B. Foraker. He did not help us because of the race, but for the cause of justice. He would have done the same for any other race that had been unjustly treated.

She urged them to direct their husbands, brothers and sons how to cast their votes in the right direction.

THE PEOPLE AROUSED.

Arrangements are being made by the colored citizens committee to have all the colored churches in the District of Columbia to petition Congress to have the colored schools separated from the whites, with their own colored superintendents and officers, as heretofore. The people are aroused and it is evident that Congress will accede to the wishes of the colored people. The colored schools are in a terrible condition, and the teachers are unable to do their duty.

IN TIME OF PRESERVES.

Best Method of Putting Up Grapes and Quinces.

As this is the season when grapes and quinces are plentiful, the following two recipes sound attractive. Select large bunches of perfect grapes, and with a silver fork prick each one carefully; put them in preserve jars that have been thoroughly cleansed, and stand them in a shallow pan of hot water so that they will not cool. Make a brandy syrup by cooking together three quarts of water with seven pounds of sugar until very thick, remove from the fire and add an equal quantity of best brandy; reheat and pour immediately over the grapes; seal and do not use for a month or two. Of course, a smaller quantity can be made as an experiment.

Peel half a peck of quinces and cut in thick slices, dropping them in cold water to prevent discoloration; then drain well and add two pounds of figs, sliced in quarters, and three oranges cut into cubes; place in a preserving kettle and cover with cold water cooking until the quinces are soft. Take out the fruit and from the water in which they were cooked make a sirup, allowing three pounds of granulated sugar and the white of one egg to every pint and a half of liquid. As soon as the scum rises, add a tablespoonful of cold water; skim until you have a very clear heavy sirup, then return the fruit and cook about five or ten minutes; pour into jars and seal with air-tight covers.

HOUSEHOLD HINTS.

To remove rust on copper rub the article with liquid ammonia.

Never put salt in soup when cooking it until it is skimmed, as salt prevents the scum from rising.

The best housekeeper is the one who passes less time in making things clean and more thought in keeping them clean as she goes.

Keep camphor in cupboards where clothes are stored, for not only will it keep away moths, but mice, which dislike it exceedingly.

Paraffin spilt on a stone floor may be removed by rubbing with brick over the mark and letting it stay till next day, then wash in the usual way and the floor will be perfectly clean.

Paint can be removed from glass by rubbing it with hot, strong vinegar. Stains on the hand can be removed by acetic acid or salts of lemon and ink marks will soon yield to pumice stone.

It is said that potatoes will bake in much less time if the skins are greased before putting them into the oven. The skins will come off more easily and will be as thin as when boiled.

Washington Pie.

Scald one pint of milk in a double boiler. Beat together the yolks of two eggs, a cup of sugar, a piece of butter the size of an egg and a heaping tablespoonful of corn starch made smooth in a little water. Stir these into the scalding milk until thoroughly cooked, then set away to cool. Make a rich crust, roll very thin, line your pie dish and, with a fork prick many holes in it and bake. By the time the crust is done have the cream cool. Flavor it with a teaspoonful of vanilla, pour it into the crust, beat the eggs to a stiff froth with a little powdered sugar, spread lightly on top of the pie and brown slightly in the oven.

Pin Cushion for the Machine.

When sewing on the machine one often wastes a lot of time having to look for the pin cushion, which usually is under the sewing machine and out of sight. A great time saver is to cut an oblong piece of flannel two inches by four and at one end cut a hole the size of a pea. Hem all four sides of the flannel neatly, and buttonhole stitch the hole. Slip this over the spindle where the spool belongs before the spool is placed on it. You will be able to take pins out of your work and stick them in this piece of flannel without stopping the machine.

Stuffed Noodle.

One cup cold chicken or veal chopped fine, one-half cup of cold cooked spinach finely mashed, one onion minced, one slice of bread softened in milk, and a beaten egg, mixed well together, pepper and salt to taste. Make a noodle dough of an egg yolk, pinch of salt, and flour to make a stiff paste, roll thin and cut out with biscuit cutter; place a teaspoonful of chicken mixture on one side and pinch edges tightly, using a little water to make them stick. Drop them in boiling water and boil ten minutes, and you have a dish fit for a king. If any of these "stuffed noodles" are left, fry in butter for the next meal.

A Seasonable Salad.

The ripe eating plums in market now make a delicious salad when combined with bananas. Cover with powdered sugar and a little sherry, if it is wanted, and let the fruit stand on ice for an hour before dressing. It is delicious served with whipped cream. Finely shredded pineapple, enough to give the whipped cream a flavor, makes an excellent blend in place of wine.

Avoid Tearing Ham.

In cutting meat from hams and shoulders, there is always some good meat left on the bones, which looks scrappy when cut off. I bought a small tapering saw and now have nicely shaped, clean cut slices by sawing through the bone as I come to it, and there is no waste and there are no scraps left.

STEAK AND PIGEON

Two Birds with Meat Will Make a Wonderful Dish.

Cut a pound of beefsteak up into small pieces, which should be nearly square; season each with pepper and salt, roll up and dust lightly with flour. Rub a deep dish well with a freshly cut onion and place the rolls of meat in it; sprinkle over them some chopped parsley and a little finely minced pork; pour in sufficient weak stock or water to cover the meat, cover closely, and cook in a moderate oven one hour. Take two pigeons which have been prepared for cooking in the usual way and well washed and dried, and cut up into neat pieces; remove the skin and flour them and put them into a frying pan with some melted dripping, a teaspoon of minced onion, the same quantity of minced parsley, and let them fry nicely browned, turning them frequently; then place them on paper to drain. When the steak is ready, arrange it and the pieces of pigeon in layers in a deep dish with some slices of hard boiled egg. Strain the gravy in which the steak was cooked into a saucepan and add a small quantity of soaked gelatin to it (in the proportion of a quarter of an ounce to a pint of liquid); stir until the gelatin is dissolved, then add a little grated nutmeg, cayenne, and salt; pour the gravy over the meat in the dish and leave it until cold; then cover with rich paste, brush it over with beaten egg, and bake in a moderately hot oven.

WHEN CALLERS DROP IN.

Almond Wafers Are Delicious to Have in Readiness.

Beat to a cream a quarter cup butter, then rub in one-half cupful powdered sugar. Add drop by drop a quarter cupful milk, then, gradually, seven-eighths cup sifted flour. Flavor with a half teaspoonful vanilla or pistache, and spread very thinly over the bottom of an inverted dripping pan and cut in three-inch squares. Sprinkle with chopped blanched almonds and brown delicately in a very slow oven. Take from the oven, turn the squares over one by one with a knife, and roll loosely. Take up and spread on a waxed paper to cool and dry. If the squares harden before you get them all rolled, place over the fire a minute to soften. Serve with cocoa, afternoon tea, ice cream or preserves.

The Attic Room.

In cities the attic room is given as much attention as any part of the house. A clever arrangement of such a room is to paper it all in white and make a fancy border near the ceiling outlined with a fancy wide paper. The hunting scene is pretty if matched with some red rug on the floor. Have the furniture all white, the bed and dresser trimmed in white and dotted white curtains at the windows. It can be made very attractive with neat furnishings and decidedly unattractive if not nicely papered or filled with refuse furniture from other rooms.

Olive Oil on Bruises.

In the treatment of bruises, where there is extensive discoloration of the skin, if olive oil be applied freely without rubbing, the discoloration quickly will disappear. Absorbent cotton may be soaked in the oil and applied. If the skin is broken a little boyle acid should be applied over the abrasion. A black eye thus treated can be rendered normal in a few hours, especially if the oil be applied warm.

To Sew on Buttons.

When buttonholes on a shirt waist are finished, sew on upper and lower button. Then button and see that the buttonhole hem evenly overlaps the button hem. Lay waist on table; insert a strip of cardboard the length of the waist underneath both hems, and with a tracing wheel gently press into each buttonhole. Unbutton waist and you have a faint mark where each button is to be sewed without measuring for each one separately.

Grated Corn Fritters.

Use one pint of grated sweet corn and half cup of milk, one-half cup of flour, one tablespoonful of melted butter, two eggs, a little salt and pepper, one teaspoonful of baking powder. Mix the milk and well beaten eggs together, add the melted butter and seasoning, then the flour and baking powder sifted together. Lastly stir in the grated corn. Drop by the tablespoonful in hot fat. Drain on brown paper and serve hot.

Darn Carpet with Ravelings.

For mending thin places in rugs and carpets, use some of the ravelings from the carpet, which should be saved for the purpose. Darn the thin places and three-cornered tears where they cannot be detected. The fringe and tassels of rugs and portieres can be darned and fastened in the same way.

Tin Coffee Pots.

A new tin coffee pot, if never washed on the inside with soap, may be kept much sweeter. Wash the outside and rinse the inside thoroughly with clear scalding water. Turn up on the stove to dry. When dry rub well with a clean dry cloth. Never put a soapy cloth inside the coffee pot.

Braid Your Wraps.

Coats and wraps will nearly all be braided this winter, and the binding of braid will be particularly in favor. Very satiny finished cloths are the favorite background for the braid, which in itself will be of the silkiest kind and of many new thick bold designs.

RECIPES

Lemon Flavor Added to Any Dish—Butter Sauce With Eggs—How to Prepare Flavoring of Lentils.

(Copyright, 1907, by the Delineator, N. Y.)

Lemon Sauce.—(1) When used for boiled fowls: Peel and seed a large lemon and cut in small slices. Chop fowl's liver, which has been boiled, very fine; add it to the lemon, with half a pint of melted butter. Serve in a sauceboat. (2) When used for fish: Put a quarter of a pound of butter in a saucepan; add the juice of a large lemon, with pepper and salt to taste. As it heats, beat it constantly so that it may become thick and hot without boiling. When cooked sufficiently, remove and add the beaten yolks of two eggs. (3) A sweet lemon sauce for puddings: Boil a pint of water and a coffee-cupful of granulated sugar together for five minutes; then add three heaping teaspoonfuls of corn starch that have previously been mixed with cold water. Finally, add both the grated rind and the juice of a large lemon and a tablespoonful of butter. Cook until the butter has melted; then serve.

Lemon Butter Sauce.—Put two tablespoonfuls of powdered sugar and half that quantity of corn-starch in a saucepan; grate the rind of one lemon over the top; then add half a pint of boiling water, the juice of the lemon and a piece of butter about the size of a hickory nut. When these ingredients have blended thoroughly, add, little by little, the beaten yolk of two eggs, being careful to stir the mixture constantly during the minute or two that it must remain over the fire. Otherwise the eggs will be certain to curdle.

Lentil Sauce.—Soak the lentils in cold water about six hours. Drain them and put them in a saucepan with some bones of ham, or a quarter of a pound of salt pork; cover with water, and season with bayleaf, thyme, parsley, a chopped carrot and two onions in which some cloves have previously been thrust. When cooked sufficiently remove the pork and discard the herbs and onions, but mash the carrot through a colander with the liquid. If too thick, add the necessary quantity of good broth to thin; season with pepper, salt and butter, and when the butter has melted, serve.

Cold Potatoes Scalloped.

Cut cold boiled or baked potatoes into dice until you have a large cupful. Have ready an equally large cupful of rich drawn butter, into which you have beaten the yolks of two eggs and a heaping tablespoonful of finely grated cheese.

Put a layer of potato dice in the bottom of a buttered dish; pepper and salt to taste. Some think it is improved by a few drops of onion juice.

Cover with the sauce and go on in this order until the materials are used up. Sprinkle fine cracker crumbs and grate cheese on top; stick bits of butter in this crust, salt and pepper. Bake, covered, for half an hour, then brown.

Yellow Tomato Preserves.

Allow a pound of sugar to each pound of tomatoes and a half cup of water to each pound of fruit. Cover the tomatoes with boiling water, then skim. Make a syrup of the sugar, and when boiling skim and add the tomatoes. Have ready a sliced lemon that has been cooked in boiling water and a little sliced ginger. Add to the tomatoes. Cook until the tomatoes are clear, remove, pack in jars, cook the syrup until thick, pour over and seal.

Stuffed Potatoes.

Bake six good sized potatoes, and when done remove from the oven, cut a slice from the top of each and carefully remove the inside. Mash this thoroughly and add two tablespoonfuls of butter, three tablespoonfuls of hot milk, and salt and pepper to taste. Last, add the whites of two eggs well beaten. With this mixture refill the skins, place in a hot oven, and bake for five minutes.

Nut Sandwiches.

Take mayonnaise or firmly whipped sweet cream, thicken with powdered or chopped nut meats—walnuts, pecans, almonds, filberts or Brazil nuts are nice—or a mixture of several varieties is good. The addition of raisins to the mixture is an improvement in flavor. Made with tea biscuit or finger rolls they are very nice and require no butter.

Mutton Feet a la Creole.

Clean the feet well, but leave them whole. They can be bought already boiled. Fry in hot lard, onions and a spoonful of flour. When browned add tomatoes and a can of sweet peppers. When done put in the feet and add mushrooms, the seasoning bouquet, and salt and pepper to taste.

Purify Water.

To purify water add powdered alum to the water in the proportion of one teaspoonful to every four gallons. If you stir this briskly you will find that all impurities will be precipitated to the bottom, while the rest of the water will be left pure and clear.

To Seal Jelly Jars.

For a good substitute for paraffin in sealing jelly jars use plain writing paper dipped in strong brandy and placed on top of the jelly in the same way as paraffin.

We mention here but a few of our specials.

Gentlemen's 20-year-Gold Filled American Stem Winders and Setters, \$10.

Ladies 20-year Gold Filled Stem Winders and Setters, \$10.

Gentlemen's 14-carat Solid Gold American Stem Winders and Setters, as cheap as \$35.

Children's Solid Silver Watches with Pin Attachment, \$3.50; regular price, \$4.50.

Ladies Solid Gold Watches, Open Face, \$8.00.

Boys' Solid Silver Watches, \$5.

on Fine Silver, with Solid Silver Crucifix, 75 cents up.

Emerald, Sapphire, Garnet, Ruby, Jade, Turquoise, Topaz, Crystal, and Coral Rosaries, strung on 14-Carat Gold-Filled Chain, \$4.00 and \$5.00. Will make a handsome Christmas present.

Solid Gold Rosaries, Genuine Stones, \$25.00.

Rosaries for special devotions, viz.: Immaculate Conception, St. Ann's, St. Philomena, St. Anthony, Seven Dolours, Infant of Prague, St. Joseph, etc., with prayers either English or German.

PRAYER BOOKS

High quality at low prices, such as Key of Heaven, Manual of Prayers, St. Vincent's Manual, Vade Mecum, Sacred Heart, Following of Christ (by Kempis), Bibles, Old and New Testaments, etc. We have them in cases suitable for bridal or Christmas presents.

RELIGIOUS MEDALS

Religious Medals in Gold and Silver; Immaculate Conception, St. Benedict, St. Anthony, St. Joseph, Infant of Prague, St. Vincent de Paul, St. Aloysius, etc.

Eight-Day Sanctuary Oil, \$1.10 per gallon.

Crucifixes, hanging and standing. Candle Sticks in Gold Silver, and Brass.

Sacred Hearts, Solid Gold, 75 cents and \$1.25.

DIAMONDS

Put Your Money in Diamonds. No Better Investment To-Day.

Prices in the Diamond market are advancing, but our prices have not been advanced in some time. We still have a large collection of superb Diamonds which we bought a considerable time ago at lower prices than prevail today.

We shall not advance prices on these stones. We are merchants and not speculators and our fair percentage of profit is all we ask. So, as long as these Diamonds last, it will be possible to buy them here under the regular market for fine stones.

Ladies' Diamond Rings, \$5.00 to \$150.00.

Ladies' Diamond Broaches, \$5.50 to \$1,000.

Diamond Earrings, \$15.00 to \$500.00.

Diamond Scarf Pins, \$7.00 up.

Diamond Cuff Buttons, \$7.00 up.

Diamond Studs, \$10.00 up.

We have Ladies' Handsome Diamond Rings set in Tiffany Mounting which we are selling at \$30.00. This will make an appropriate present for Christmas. Every stone a ball of fire.

CLOCKS AND BRONZES

Clocks of all makes—American, French and German. We have a Clock as cheap as \$5.00—must be seen to be appreciated. All Clocks kept in order for two years.

DUVALL IS SELECTED

APPOINTED MAJOR GENERAL TO SUCCEED MCASKEY.

Question of Seniority Is Ignored by the President—Considerations That Ruled—Interesting Competition Ended.

Washington.—It was announced at the war department the other day that the president has appointed Brig. Gen. William P. Duvall major general in the army, vice Maj. Gen. William S. McCaskey, commanding the department of Dakota, at St. Paul, who has been retired on account of age, and Lieut. Col. William Waterspoon of the Nineteenth infantry, acting president of the war college, a brigadier general, vice Gen. Duvall, promoted.

These appointments end a most interesting competition in the army. In both cases the president has ignored the question of seniority, and selected officers by no means at the top of their respective grade. Gen. Duvall stood number seven in the list of brigadier generals of the line, and his relative rank in that grade was number fourteen.

The six brigadiers of the line who were passed over through Gen. Duvall's appointment are Gens. Funston, Carter, Bliss, Barry, Mills and Edgerly, but it is stated as a curious fact that Gen. Duvall was either instructor or drill master at West Point to each of those officers except Funston. Each of them is younger in years than Duvall, except Edgerly, who is slightly older.

Of the other brigadiers, Gens. Godfrey, Myer, Hall, Thomas and Morton will each retire for age before Gen. Duvall, and Gens. Davis and Hodges within a few weeks afterward. Of the younger brigadiers, Gen. Funston will retire in November, 1929; Carter in November, 1915; Bliss in December, 1917; Mills in May, 1918; Pershing in September, 1924. Gen. Duvall will retire in January, 1911.

It is stated at the war department that the promotion of Gen. Edgerly of the cavalry arm, who is senior in rank

MAJ GEN W. P. DUVALL.

and years to Gen. Duvall, would restrict the grade of major general to the cavalry, for the other five generals have all been cavalry officers. On the other hand, Gen. Duvall is from the artillery and is the first from that arm to hold the grade of major general, except for the purpose of perfunctory appointment in order to secure an advance grade upon retirement, since Gen. Schofield relinquished it in 1895.

Another consideration said to have influenced Gen. Duvall's preference was the fact that the infantry now has the lieutenant generalcy and some of the preceding lieutenant generals were also from the infantry, which arm, moreover, has always been regularly represented in the grade of major general.

The senior brigadier was Funston. In regard to him it was stated that he is so young that although all the brigadiers now in service might in turn be appointed to the grade of major general, Funston would still have the opportunity to retire as the senior major general, who would then be the ranking officer of the army, as the grade of lieutenant general will lapse with Gen. MacArthur's retirement in June, 1909.

Besides these considerations, which had their weight in bringing about the selection of Gen. Duvall to this promotion, personal considerations were potent, for it is stated that the president and Secretary Taft regard Gen. Duvall as one of the ablest of the general officers of the army, whose record of service both in the line and the staff is exceptionally fine. He is now on duty at the war department as assistant chief of staff, and will probably continue in that office for an indefinite period.

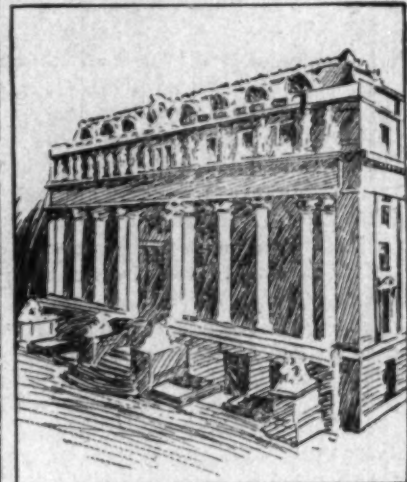

Gen. Duvall was born in Maryland, and was appointed a cadet to the military academy from that state July 1, 1865. He was graduated June 15, 1869, and was appointed second lieutenant in the Fifth artillery, in which arm he served until appointed brigadier general from the grade of lieutenant colonel March 3, 1906. During the Spanish-American war Gen. Duvall served as major and inspector general, lieutenant colonel, chief of ordnance, lieutenant colonel, Twenty-sixth infantry, and colonel, Forty-eighth infantry—all in the volunteers—from which he was mustered out June 30, 1901.

BRAND NEW CUSTOM HOUSE.

New York City Soon to Be in Possession of Fine Structure.

New York.—Before the snow flies the collector of customs for the port of this city and the small army of men who work under him will be installed in their future official home, the new custom house, at Bowling Green, for that structure now is in such a condition that it requires only the placing of the furniture of the various departments in their respective rooms to make it ready for occupancy.

As regards the exterior, the new building in the judgment of many authorities in such matters is the finest government building in this country. Its splendid beauty is the production

THE NEW CUSTOM HOUSE. Splendid Building Just Completed Will Be Occupied Before Many Weeks.

of an American architect. Our illustration gives a comprehensive idea of the effect of the sculptural adornments of the main front and the happy effect of the row of classical urns placed along the top of the colonnade on the state street facade.

French's four groups, representing the four continents, the great seal of the United States in the center of the top of the main front, and the 12 figures on the colonnade typifying the great maritime nations of the beginning of modern times, all are in such fine harmony that they make the front of this new public building one of the architectural triumphs of this country. The interior of the building is finished to be in keeping with the whole scheme of the exterior. In the planning of its decoration a note is struck that one may now get a faint impression from the gilded bronze gate that is placed across the main entrance way at the head of the second flight of steps in the barrel arched vault that leads directly to the central corridor of the main floor.

MAGNIFICENT RUSSIAN CHURCH.

Memorial to Murdered Czar Opened at St. Petersburg.

St. Petersburg.—The new Church of the Redeemer was recently opened by Czar Nicholas II. in memory of his murdered grandfather, Alexander II. For hours before the arrival of the imperial party traffic over the three Neva bridges was suspended. Policemen were posted in front of every house along the route of the czar from the landing place to the new church, and owners of houses were menaced with a fine of \$1,500 for opening their windows while his majesty passed. The imperial party landed near the British embassy. The Neva was patrolled by police launches, and the public was not allowed within many hundred yards of the memorial church in any direction. The church has been erected at a cost of \$2,500,000. The first stone was laid in 1887. The folding doors to the altar are of pure silver.

In Memory of a Murdered Czar.

ver and covered with magnificent ikons incrusting with precious stones. An ikon of Our Lady of Kazan was subscribed for by Cossack women. The spot where Alexander II. fell remains exactly as it was when the tragedy occurred on March 13, 1881. To insure this each stone was numbered. The traces of the czar's blood are still visible. Above the spot is a beautiful canopy of malachite and pink stone from the Ural mountains, and from it depend an orb and sceptre and a crown of thorns.

Cutting Off Supplies at Greaser Gulch.

The Tenderfoot—What are you going to throw at the bad actors this season? Eggs?

The Native—Nope. Too dear.

"Vegetables?"

"Too scarce."

"What then?"

"Waal, stranger, we reckon we won't throw nothin'. Them fellers used to eat th' eggs an' carry off the vegetables, and we reckon whet they don't get neither they'll feel as so they wuz treated a dum sight wuss than if we pelted 'em good an' plenty."

—Cleveland Plain Dealer.

CITY HAS BOY MAYOR

R. W. BINGHAM, 35 YEARS OLD, RULES LOUISVILLE, KY.

Entire Cabinet Composed of Young Men—What They Have Done—Youthful Government Result of Court Decision.

Louisville, Ky.—Mr. William Dean Howells described "A Boys' Town." If he should come to Louisville he would find material for "A Young Man's Town."

Louisville is now experiencing government by men who are comparative youths and is also experiencing the most vigorous administration of the laws she has enjoyed in years.

This youthful government is the direct result of the recent decision of the court of appeals which ousted the former administration of Louisville on the ground of an unfair election and delegated to Gov. Beckham, himself a man well this side of 40, the power to fill practically all the offices. Here are some of the principal officers:

Robert Worth Bingham, mayor, 35 years old; A. Scott Bullitt, sheriff, 30; Robert Lee Page, county attorney, 28; W. W. Davies, chairman of the board of safety, 32; James B. Brown, chairman of the board of works, 32; Dr. Ellis Duncan, coroner, 34, and Will N. Cox, member of the board of works, 35.

The board of safety and the board of works control all the departments and have charge of all the work done by the city of Louisville, so the chairmen of these boards, with the mayor, practically dominate the city.

The first thing Mayor Bingham did when he came into office was to give notice that the "lid" must stay down on Sunday. He appointed a chief of police who would carry out his orders

Mayor Robert Worth Bingham.

and his board of safety gave the police force a shaking up that proved decisively it meant business. The result has been to show that a "lid" can be kept on when it is meant to stay on. Louisville is a dry town on Sunday now. There are scarcely any attempts to tilt the "lid," and these are speedily checked by the police, who are exercising the eternal vigilance that is the price of a well fitting "lid."

The mayor did more. He took the police and fire departments out of politics, started an investigation of city institutions that revealed a fearful condition of the city hospital, that is being remedied; exposed and stopped a number of grafts and is now having an investigation of the water company, Louisville's prize municipal institution, the affairs of which have been carefully kept from the public for 30 years and which is suspected of having been the scene of riotous extravagance.

A few days after Sheriff Bullitt entered his office he assembled his force of deputies, without saying where they were going, piled them into automobiles, dashed out to the poolrooms, raided them, arrested the operators and stripped down the blackboards and paraphernalia and closed the doors. They have remained closed tight since.

The cases of those arrested are pending in the county court, where Mr. Page, the youthful county attorney, is prosecuting them as vigorously as Sheriff Bullitt raided.

As the result of the vigorous work of these young men Louisville is enjoying the best city government it has known within the memory of a generation.

The latest achievement of Mayor Bingham and Sheriff Bullitt has been to prevent a street car strike which threatened the greatest industrial conflict ever known here.

Their Fussy Husbands.

The women—there were three of them—had arrived at the stage of confidence in their conversation which made it possible to exchange views regarding mere man as exemplified by their husbands.

"Talk about fussiness," said one, "I'd like to have you cater for John through a week. What do you suppose he asked for the other morning? He said the only way that bacon ought to be cooked was to have the fat crisp and the lean part just warmed through."

"My husband," said the second sufferer, "won't drink orange juice unless it has been strained twice."

"And mine," said the third, more in sorrow than in anger, "won't touch grapes unless I can assure him that they have been washed in at least three waters."

OLD PAPERS PAY HIS WAY.

Kansas Youth's Unusual Way of Defraying College Expenses.

Boston.—Ralph Bunker, a graduate of the Sabetha high school in Kansas, took an unusual way of assisting in defraying his expenses at Harvard college for the ensuing year.

Several weeks ago, with the assistance of two or three little boys and a home-made wagon, drawn by a white burro, young Bunker started the task of collecting old papers and magazines for the paper mill of the Kansas City Star. In a short space of time he collected between three and four tons of old papers in a town of 2,000 inhabitants. Had he had more time to devote to the work he could easily have secured a carload and possibly two.

Ralph Bunker and His Paper Wagon.

He went about the business in a methodical manner. Monday mornings he visited the residences, securing therefrom the voluminous Sunday editions of city papers, as well as the week's accumulation of newspapers and scraps. At some homes there were many old magazines that their owners had long wished to get rid of. Others gladly gave him the advertising sheets from the magazines when they desired to retain the reading matter.

Bunker called at the stores three times a week. He supplied all business houses with boxes into which every scrap of paper was thrown. When he called there was no necessity of annoying any one; he simply cleaned out the box.

All alleys and outlying districts were visited one of the remaining days of the week and were left in better shape than they had been found for years.

The last day, Saturday, which was too busy a day for both housekeepers and storekeepers to be disturbed by any one, Mr. Bunker wisely devoted to packing and binding his papers in bundles to be ready for shipment.

Sabetha women and merchants were rather enthusiastic over the attempt of Mr. Bunker, which not only assisted him, but disposed of the summer problem of what to do with papers with no furnace running. Sabetha, always a well-kept town, was absolutely Spotless Town during the paper collection.

Mr. Bunker made enough money to pay for his board and room for several weeks.

FEW WOMEN WANT OFFICE.

Experience in Colorado Shows Fair Sex Cares Little for Political Plums.

Denver, Col.—Contrary to expectation, it was found in a recent investigation of the subject in Colorado that few women had any desire to hold office. The position of state superintendent of public instruction was the only state office which has been conceded to woman, and that of county superintendent the only elective one.

Mrs. Hales M. Grenfell. Twice State Superintendent of Schools in Colorado.

which has been filled by her to any large extent. During the first years of equal suffrage it was the custom to elect three women members to the legislature from the county of Arapahoe (Denver), but this is no longer done. Neither of the last two legislatures has had any women members. In 1900 there were 29 women county superintendents elected, 505 school directors, and scattered throughout the state one woman representative in the offices of county clerk, county treasurer and assessor.

At the present time there is only one county office, outside of that of county superintendent, held by a woman, namely, the treasurer of Gunnison county. Party politics are now directed almost entirely by the men.

The Mission of Letters.

"So you are writing stories?" said the friend.

"Not exactly," answered the cynical litterateur; "I am merely furnishing a certain amount of text to keep the illustrations from running into one another."

AT ST. LAZARE, PARIS

NO GLOOM OR PATHOS AT THIS PRISON FOR WOMEN.

Many Cheerful Faces Seen Among Inmates of Dreary Place—Philosophy of French People There Exemplified.

Paris.—Henry Jones once said of the French people that their philosophy of life was 40 years ahead of the times. It is a philosophy that makes them receive good and bad luck with the same cheerful smile, the same careless shrug of the shoulders.

One finds it exemplified in its most hopeless environment at St. Lazare, the women's prison of Paris. It is a great, dreary building, this St. Lazare, but no one seems to feel any sense of its gloom or pathos.

Outside in the early morning will be standing a group of people waiting to see relatives or friends, a characteristic Parisian group: A young man of the Apache type, hat well pulled down over a low brow, very high collar and skin of that waxen pallor peculiar to the Parisian boulevardier; three smiling, coquettishly dressed women without hats, a clean little old man who talks to himself and emphasizes the monologue by beating with his stick on the pavement, and a sharp faced little girl whose red stockings hang down over a dilapidated pair of boots much too big for her. It is this last who speaks, addressing all the group:

"I've come to bring my sister some of her duds. She's been pinched again. It's the fourth time."

"Oh, well," answers the pale young man, "that's all right, little one. You will know the road when your turn comes."

When the smiling old porter opens the gates a nun comes forward to receive the visitors and to take the things they have brought or to allow them the interviews they ask for.

In a large room on the right are the clothes of the prisoners. These are all taken away from them when they enter the prison, to be kept until such time as the owners are entitled to go out into the world again. When the finery is all discarded the new inmate puts on a uniform—a coarse gown with fichu, a neat little bonnet—and wooden shoes.

All their weapons of charm are taken away from them—all but their natural coquetry, which no power can divest them of. Fichus are tied with care, hair is puffed out under the demure cap, and the first thing relatives are asked to bring to St. Lazare is a looking glass.

Yes, every woman there, no matter how poverty-stricken, old or ugly, has her bit of a mirror hung up in her

St. Lazare, the Women's Prison in Paris.

cell, and more often than not it reflects a happy, smiling and pretty face. They seem to enjoy this change of costume, and sometimes a newcomer will try a few steps in the wooden shoes when the sister in charge is not looking.

In one corridor are the women whose children have been born in the prison. The mothers look happy and the children are rolling about healthy and rosy as children anywhere.

"They do very well here," says the nun. "They are warm and comfortable and every one spoils them."

Next to the corridor of the babies who are born here is that of the old women who will die here, and very pleased with their life they look as they sit chatting of former successes in the days of their youth and beauty.

In a workroom is a nun with two women helping her to mend linen. One is the girl who threw vitriol at a faithless lover not long ago.

"Yes," she says in speaking of it, "I am sure he will lose an eye, though I only meant to burn his neck. I never do have any luck!"

The other girl is a tall brunette from the Midi, who has been here four times for theft. She stole first because her little boy cried with hunger. That sent her to St. Lazare for two months.

After that work was even more difficult to get. One doesn't come out of St. Lazare with a spotless reputation. When asked what she will do when she served her term this time, she replies with a bright smile:

"Oh, I'll have to go to Italy or some place far away from Paris now. I'd work if I could, really; I'd be a faithful and devoted domestic if some one would only pay me 50 francs a month. But no one will, so I'll have to go on stealing. One must live, you know."

And the nun sitting by nods sympathetically.

Teakwood, or Indian oak, will sink in water. It is one of the hardest of woods.

NEW KING OF ANNAM.

Eight-Year-Old Son Succeeds Fercious Oriental Father.

Paris.—The news recently received that Than-Thai, the king of Annam, had been forced to abdicate in favor of his eight-year-old son caused not the slightest surprise here. Indeed, the only surprising feature of the affair was that the French resident had allowed Than-Thai to reign as long as he did.

Than-Thai was placed on the throne by the French in 1889, in succession to King Dong-Khan. He was then ten years old. From the first he exhibited a character of a fiendish nature, and it has always been a matter for criticism that those who were responsible for his elevation to the throne should not have taken the trouble to dis-

cover the nature of the child they chose, or, at any rate, have learned of the tendencies he so soon developed. The mistake has not been repeated. The new ruler, who is Than-Thai's second son, is only nominally the king, and for a long period the country will really be ruled by the French resident at Hue.

How many of the stories of the atrocities perpetrated by Than-Thai are true nobody knows, but enough is known to make it evident that even the terrible records of Asiatic royal barbarities can show few human monsters equal to him. It is said that he found his favorite pastime in torturing his subjects with the most extraordinary refinement of cruelty, and that on many occasions the victims were his own wives. Recently, it is stated, he had seven of them executed, at once, and the body of one of these women, who had incurred his special enmity, was cooked and served at dinner to his household. Others of his wives were boiled in oil, and various members of the royal household were thrown into the cages of wild beasts, the king looking on with delight.

At about the same time, it was reported, Than-Thai, with his own hand, shot and killed a prince 70 years old, a member of the Council of the Royal Family and the last surviving son of King Minh-Mang. When the French resident protested, the king replied by forbidding him to enter the palace.

It is said that in the king's seraglio were 1,000 wives and other women and their servants. Once they entered the royal household they were never permitted to leave it. Many of the wives were recruited from the ranks of the actresses at the royal theater.

HONESTY AS A POLICY.

Reflections of a Prison Warder Whose Wife Had Taken a Prisoner's Cake.

Rather an original story comes from the criminal prison at Warsaw, Russia. A bookkeeper, named Schneider, was awaiting his trial, being charged with fraud. As his health was bad his family sent him many little delicacies unknown in the prison fare, delicacies which, no doubt, the head warder shared with him.

The other day, among other things, a huge iced cake appeared. The warder's children were fond of cake, and so was his wife. They therefore determined to keep half of it for themselves. Their surprise was great when, upon applying a knife to the dainty, it stuck just below the icing and refused to go any further.

"It must be baked to a cinder," said Mrs. Warder. But her good man, suspecting that something worse than careless baking was responsible for the cake's hardness, cut round the sides, and was rewarded by finding a revolver and seven cartridges buried in the paste.

When brought up before the authorities Schneider confessed that he had intended to shoot his guardians and escape from prison before his trial. "After all," said the warder, pensively, when he told his story, "honesty is not always the best policy. If my wife had not cut into that cake I should have been a dead man by now, for I sleep hard."

Habit of Remembering.

The habit of remembering can be acquired just as other habits are acquired, until a good memory becomes a second nature. We can increase our facility of recollection by concentrating the attention at the time we receive the impression, and then by repeatedly calling up the same idea afterward, just as a child is taught the multiplication table. Old-fashioned impression and recollection make the memory automatic, and, indeed, quite independent of consciousness.

TUESDAY'S ELECTION.

The agony is over, and no doubt the Administration is convinced that the American people are not satisfied with its policies.

What has the Administration been benefited by the appointment of Democratic heads of the several departments, to the exclusion of Republicans? Republicans everywhere have been ignored and Democrats appointed, with the hope of aiding someone personally.

Kentucky went Republican. The Bee as well as others will hail the return of that State to the Republican fold, because innocent men like Caleb Powers, Ex-Governor Taylor and others will now be vindicated. In New York Tammany has defeated the fusion ticket of Hearst and Parson. New Jersey has turned a double, back-hand somersault; Ohio—or, rather, Cleveland—gave President Roosevelt the "most unkindest cut of all." Representative Burton, who was to vindicate President Roosevelt's unconstitutional act, got it in the neck. As The Bee predicted that he would. This vindicates Senator Foraker, who acted the part of a great man after he had been assaulted by the President. Of course, we expected nothing else from Massachusetts but a Republican landslide. Mississippi and Virginia went as was expected. "From nothing nothing comes." The advice of The Bee to the Administration is, to take care of its friends and let its enemies go floating, and unless this is done there will be a Waterloo to the Republican party in 1908.

NOMINEE OF THE PARTY

The Democratic party offers no inducements whatever to the colored Americans in this country. It is quite evident that that party does not cater to the colored voters, and it would be folly for that vote to go where it is not wanted.

The next question is, then, Where shall the colored vote go? The Republican party has made every effort to establish lily white organizations throughout the South for the purpose of drawing to it certain Democratic support, but without success. Republican leaders and Republican organizations have been ignored in the South, and the power placed into the hands of prejudiced Democratic referees. What has the Republican party gained by the action of the Republican administration? While it is the duty of every president to be a Democrat or a Republican and to be President of all the people, it is certainly bad politics to place into the hands of the enemy the distribution of patronage that our friends are able to control or dispense.

The question is, however, Will the colored voter support the nominee of the Republican party, or will he cast his vote with the Socialist or Prohibition party, or go to the enemy? Let the colored voter decide.

UNITED REPUBLICAN CLUBS.

The meeting of the United Republican Clubs at Grand Army Hall last Thursday evening was a demonstration worthy to be considered. The Republicans turned out and showed their appreciation of the principles of the Republican party. The speeches were enthusiastic, sound and logical. The resolutions adopted by the meeting spoke in no uncertain sound. They appear in full in The Bee this week, which the Republicans appreciate.

The inform the Administration that Republicans are not fairly treated in the distribution of patronage; they recommend the appointment of a judge to succeed Judge Kimball at the expiration of his term of service, and conclude by demanding the abolition of our present public school system.

The Republicans appeal to Congress to remedy the evils that exist in our general and local governments. It can be done by proper legislation.

DR. LUCY MOTEN.

The secret of the opposition to Dr. Lucy Moten emanates from two women who are near to the school authorities. Both of these women are opposed to Dr. Moten because she refused to subscribe to color prejudice which is so deeply instilled into the hearts of these two females. This prejudice dates several years back, when one of these females was in her social glory. Dr. Moten declined to be a party to this color prejudice, and she has never been forgiven.

Several members of Congress have agreed to have the colored schools investigated, which will bring out some startling incidents.

Aside from the case of Dr. Moten, other damaging testimony will be brought out against certain of the school officials who have been a party to many school irregularities.

FAIR ELECTIONS.

In the election of delegates from the District of Columbia, it should be carefully considered. There should be a delegated convention, instead of a primary. A delegated convention will give greater satisfaction. It should be a representative convention of both white and colored Republicans. There is no reason whatever that we should not have a convention that will reflect credit upon the Republican party in the District of Columbia. There are lots of good men from whom the Republicans can select, such men as General George H. Harris, Chapin Brown, Ex-Public Printer Ricketts, Dr. W. S. Richardson, and others. Any of the above would reflect credit upon the Republican party of the District of Columbia.

NO NEW QUARTERS NEEDED.

It is stated that the Superintendent of Public Instruction is in need of larger and more commodious quarters. This is an unnecessary expense. When Congress convenes and passes an act separating the schools the old quarters in the Summer Building will be sufficiently adequate to accommodate the officers of our schools.

The colored superintendent can go to the Summer Building, and if we have a separate board it can meet there as before.

The people, that is, the colored people, demand a separation and the management of their own schools.

THE COLORED SCHOOLS.

The colored citizens of Washington are taking a lively interest in our public school system. Thousands of them are anxious to have their schools under the management of their own people, with Ex-Superintendent George F. T. Cook at the head. When Mr. Cook was superintendent the colored schools were in a flourishing condition. Mr. Cook was an honor to the schools and a credit to the people.

The appeal will be made to the next Congress by the colored people for the control of their schools.

ROSCOE.

The editor of the National View is a jovial mortal. He is greatly disturbed about the interlopers that infest this city. They were too numerous for the editor of the National View; hence he took his leave for New York. They are the disturbing element in the city, young man.

Read the program of the coming anniversary of Howard University. It will be a great event.

The present public school system should be abolished.

Mr. Roosevelt, you had better change your policies. The country has rebuked you.

The address of Auditor Ralph W. Tyler last Sunday was interesting.

The people will repudiate the two superintendents when they appear before the Second Baptist Church Lyceum.

Will some wise political philosopher point out to The Bee what the President's reform policies accomplished?

The Cleveland Journal and all Negro apologists in Cleveland, Ohio, should take off their hats to Editor Smith, of the Gazette. Burton's occupation is gone.

UNEASY.

From the National View.

We have always been deeply impressed with the deserved and admirable esteem in which the black Blaine (or was Blaine the white Chase?) held himself, and shone forth in the dazzling splendor of his omniscience; but it is, to say the least, surprising, if not exciting, to read from his inspired and divinely-kissed pen, that he is not ashamed of a comparison, in his attitude toward men, with "Jehovah or King or Lord." Rather does he frankly and bravely make it! However, we have never for a moment doubted that Lord William was a prophet, more blessed and nearer the Throne than the cloud-son of Cumae.

Be that as it may, we trust that Mr. Chase will beat down those who are usurpers in the Republican party of the interloper-ridden District of Columbia.

Grand Master Houston left the city on Thursday for a trip North. While absent he will visit the Order in New York and attend the monthly meeting of his Board in Philadelphia, besides inspecting the new headquarters of the G. U. O. or O. F. being erected in that city.

ALABAMA'S OPINION OF BRUCE.

From the Birmingham Reporter.

R. C. Bruce, who has been posing as the Negro's great orator and thinker, is now taking his first lessons in civil government. Bruce met his Waterloo when striking at Chase through a poor humble woman, who knows nothing but honesty.

No more Bruce, who seeks the advantage of a poor, struggling woman. Give the people Duboise. He is all right for the place.

Who knows why Bruce left Tuskegee, the greatest industrial school in the world and endowed with plenty of money and honors?

Bruce will be continued in our next issue, as he is a belly crawler whom the public should know.

Who will support Bruce in Washington after treating the poor colored woman as he did? The man who supports him will be participants criminis, and we are sure the good people of Washington will not stand for such.

The reunion of the Odd Fellows will open up in Calera, Ala., October 31. Thousands of people will attend. The Grand Lodge officers are expected. Everyone in the bounds of this point should make it a special occasion for your own information.

Chase will win out and Bruce will go to the wall, and Dr. Duboise will doubtless get his place. Bruce has evidently been trying to play the lizard shuffle, and the result seems to be that he has talked himself out of a job. If Bruce is really guilty of the charge of trying to defeat a poor, honest woman for her position in the Washington City schools the Washington citizens as soon as such a thing is proven should drum him out of the city.

Let Washington have Dr. Duboise. He will at least tell the truth about women. Wonder why Mr. R. C. Bruce don't tell why he left Tuskegee? He seems to know about the leaving of others and their ability. It appears to us that Bruce has gotten into one of those sneaking, denying spirits which prefers to do the right than the wrong.

STAND BY THE REPUBLICAN.

From the Charlotte Advertiser.

You are right, Mr. Editor of the Conservator, in complimenting Mr. William Jennings Bryan on his good behavior toward the Negro in making his speeches in the South. Mr. Bryan was in our city several weeks ago, and it was our good fortune to hear him deliver what we consider a speech that was full of thought, information and instruction.

From beginning to end not a single utterance came from him concerning the Negro. In speaking of the average man he used general terms that would apply to all men alike. But as you say, we could not endorse Mr. Bryan for the presidency on account of his followers, such as Vardaman, Hoke Smith, John Temple Graves, John S. Williams, Ben Tillman and a variety of other demagogues.

The Negro politicians who are blessed with that opportunity of exercising their franchise should not lose their heads and say things derogatory of the Republican party. Some of us as a race are guilty of saying too many things at the wrong time. Be not over-anxious in expressing your political convictions to your enemies. You can curse the Republican party as much as you please, but it is the only medium through which all of the Negroes of this country were given their franchise, and there is no State, neither South nor North, where the Republican party has ever agitated disfranchisement.

The leaders of the Democratic party remind us very much of one of Aesop's Fables, "The Cat and the Mouse." They understood how to appeal to the sympathy and passion of the Negro. At times they try to make you believe that the Republican party simply uses the Negro for a purpose. Whenever the Negro is led by this benign spirit he always more or less makes a serious mistake.

No party, so far as history is concerned, ever existed without friction within its ranks; but whenever they lose their heads, and begin to stray from the true principles for which the body stood, the whole falls to pieces. What use is it for the Negroes of the Republican party to get mad with President Roosevelt for his action in discharging the Negro battalion at Brownsville? That is one and the only incident that we can see so far that has caused so much friction among the Negroes of the Republican party. Is that a reasonable excuse to set up as a stigma to the party with which they are identified? If you are going to retaliate for what you call a high-handed outrage to the Negroes by the President of the United States and because of which you are to give your strength to the other side, what are you going to do with the thousands of wrongs that have been heaped upon the heads of the Negroes before the Emancipation, and long after freedom and even down to the present day, especially by the Southern States, which have robbed us of our franchise? Stand by the party, men, that party which brought you out of utter darkness and into light, so to speak.

DIPLOMAT IN TROUBLE.

From the Industrial Era.

A telegram from Washington says it is learned from an authentic source that charges have been filed against Dr. Ernest Lyon, United States Minister to Liberia, and that they were being investigated by an agent of the State Department. Following his usual custom, however, Assistant Secretary of State Bacon absolutely denied the story.

As the information goes, Minister Lyon has been trifling with the affections of the wife of another diplomat at Liberia, against the statutes as made and provided, and against the wishes of said diplomat and against diplomatic social rules. Diplomatic circles in Liberia are all torn up over the scandal.

In case Dr. Lyon is relieved from his post, George Ellis, of Lawrence, Kan., at present Secretary of the Legation in Liberia, will likely be appointed minister. Dr. Lyon hails from Maryland. All parties to the affair are Negroes.

REPUBLICANS MEET

Continued From First Page

become almost a practice), and Whereas, there is a growing discrimination in the several departments of the local and national governments against all classes of Republicans, and a seeming indifference of the administration toward our own Republican forces and representatives who have worked assiduously to promote and perpetuate the principles of the Republican party;

Resolved, therefore, That we condemn these practices as un-Republican, unfair and wrong.

Resolved, further, That a committee of five be appointed by this meeting, to confer with the Roosevelt and Fairbanks Republican Association and the National Republican Club of the District of Columbia, for the purpose of recommending to the National Committee a suitable form for the election of delegates from the District of Columbia to the next National Republican Convention.

Resolved, That when the United Republican Clubs adjourn tonight it will be to meet in February, 1908, at the call of the Executive Committee, in this hall, for the purpose of presenting to the Republicans of the District of Columbia two suitable representative Republicans to be voted for as delegates to the next National Republican Convention.

Joe Gans will give George Dixon, the colored ex-lightweight, a position at his hotel in Baltimore as head bartender. (This is acting white. Good boy!)

those who failed to attend. They

Chancellor Heiskell, of Memphis, Tenn., has granted a temporary injunction restraining Negroes collectively or individually, from using the word Elk. The emblems, symbols, etc., now used by the Benevolent and Protective Order of Elks of the United States. The whites based their action that the Order was chartered in 1868 and provided that only white citizens of the United States and of certain ages could become members.

Plans are on foot at Montreal, Canada, to use horse flesh on account of the high prices of meat.

So many colored men have applied and have become members of the Railway Mail Service that the whites have become disgusted and have dropped out. The department is much worried over the matter.

Gus Wright, colored, of Roanoke, Va., has been arrested for using the United States mails to advertise and promote a fake insurance company, known as the Falsified Order of Friendship, by Postoffice Inspector H. B. Mosby.

Mr. W. Sidney Pittman and his bride, Mrs. Portia Washington Pittman, arrived in the city Tuesday.

HOUSE CLEANING IN FALL.

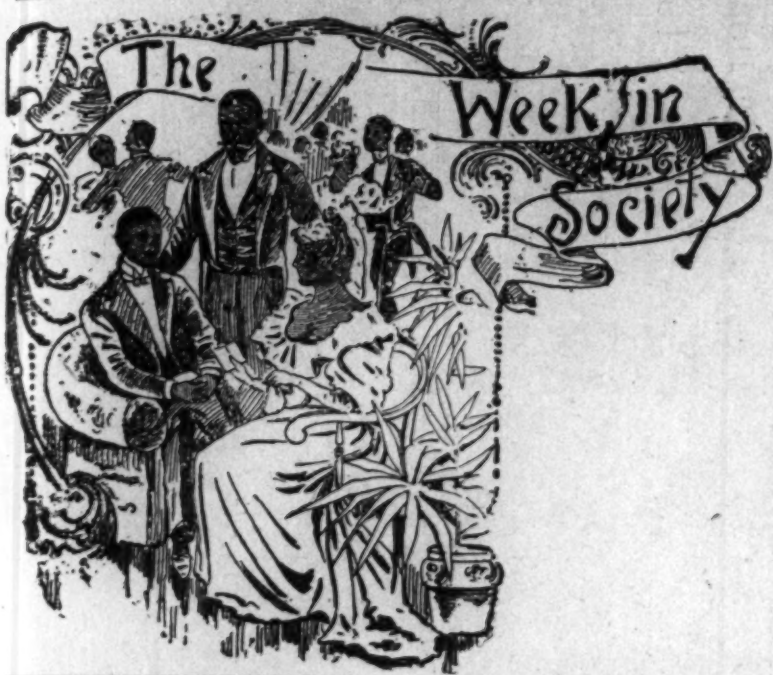

Cellar is One Important Point to Be Considered.

The house does not get so dirty during the summer that a general upheaval is necessary for fall house cleaning, though there is one place where the greatest attention must be given, and that is in the cellar. Damp days, together with the decaying vegetables and fruits stored in the cellar and the unavoidable dirt which is certain to accumulate, makes it really necessary to hang up a red light in that apartment unless the cellar is properly cleaned during the fall. Often the cleanest house will have a cellar in the most disreputable condition with spoiled fruits, vegetables and the like, making it a hotbed of diseases. Have the cellar walls swept and liberally whitewashed, clean the floor and sprinkle with lime. Every box, cupboard and hoarding place should be thoroughly cleaned with water and soap. If there is any perceptible dampness, the cellar should be aired, if possible, and often this can be overcome by burning a small gas or oil stove in the cellar for one day. No difference how nicely one may prepare canned fruits and preserves, if the cellar is in a damp condition everything will mold and in many cases sour and spoil. One day's work, even though it be arduous labor, will save the summer's work represented in the canned fruits, jellies, etc.

CARE OF WAXED FLOORS.

Pure Turpentine the Best Thing With Which to Clean Them.

Those who have waxed floors in their dwellings know, according to indoors and out, how invaluable turpentine is in cleaning them. With sandpaper or steel wool, dipped in turpentine, the blackest coating, which is apt to accumulate in winter on waxed floors not frequently polished, can be easily and quickly removed; and a washing with turpentine does much to brighten up any waxed floor, preparatory to the application of a light fresh coat of wax and polishing with the weighted brush. As with all other painters' materials, however, turpentine is shamefully adulterated, and care must be taken to get only the best and purest from some thoroughly reliable dealer. The usual adulterant is cheap benzine, and as benzine turns good floor wax a dirty white, turpentine so adulterated has an injurious effect on the floor. The floor "waxes" made with tallow show less effect from adulterated turpentine, but the wise householder will use only those floor waxes made with bee's wax and turpentine, with a little paraffine, but no tallow.

THE PITTMAN-WASHINGTON WEDDING.

From the Tuskegee Student.

The chief social event of the year at Tuskegee Institute was the marriage Thursday evening, October 31st, at "The Oaks." Principal and Mrs. Washington's residence, of Miss Portia Marshall Washington and Mr. William Sidney Pittman, of Washington, District of Columbia. The whole affair was simple and impressive in its dignity. The Electrical Division of the school transformed the entire grounds of "The Oaks" into a blaze of light by utilizing colored lights in the trees, among the rose bushes, hedges, and in the various nooks and corners. Similarly, on the inside of the house, decorations of grasses, ferns, wild Southern smilax, white roses, with multi-colored lights, made the interior most beautiful. Room had been erected, and it was under this that the ceremony was performed by Chaplain J. W. Whitaker.

Just before the wedding procession formed, Mrs. Washington and her son, Davidson, took their places to the right of the canopy. Miss Gertrude Washington played the solemn Mendelssohn Wedding March, and the ushers, Messrs. Nathan Hunt, John Washington, Jr., George Austin and G. W. A. Johnston, led the procession. Then followed the groom elect and his best man, Mr. W. R. Griffin, of Washington, D. C., and in order, the bridesmaid, Miss Gertrude Watkins, of Montgomery, Ala., and last the bride-elect, Miss Washington, leaning on the arm of her father, Dr. Booker T. Washington. After the ceremony congratulations of the assembled guests were earnestly and sincerely bestowed.

The refreshments were particularly dainty—chicken salad, rolls, cheese, olives being served, followed by ice cream in the form of red apples, lilies, white and green colored, pears, busts of famous characters, roses and many others of similar kind. The cutting of the bride's cake, a particularly formidable-looking affair, was accompanied with a great deal of merriment as slices were distributed to all of the guests.

Many presents were received by the bride and groom, coming from all parts of the country, from distinguished men and women who are friends of Principal Washington, as well as from many of their own friends. Those presented by members of our own community were also beautiful and in many instances very valuable.

Miss Washington is a graduate of the Tuskegee Institute, receiving the school's diploma and also a certificate from the Dressmaking Division. She also took a short course in the Millinery Division. Afterward she studied and graduated from Bradford Academy, Massachusetts, one of the oldest schools in the country for young women, being one of the two young ladies of the graduating class to appear on the program. The next year she went to Europe for two years of study under Professor Kraus, of Berlin.

Miss Gertrude Watkins, the bridesmaid, is a relative of Mr. Pittman, and has been Miss Washington's lifelong friend.

Mr. Pittman, as is well known, is a graduate of the Tuskegee Institute, and of Drexel Institute, Philadelphia. He was Tuskegee's instructor in architecture.

There came to Tuskegee this week Mrs. John S. Trower and Miss Trower, of Philadelphia; Mrs. John E. Bush and her daughter; Mr. W. R. Griffin, of Washington, who was the groom's best man; Miss Gertrude Watkins, of Montgomery, the bridesmaid, all of whom were entertained at "The Oaks."

Dr. A. M. Curtis, of Washington, D. C., who was the guest of Mr. and Mrs. Scott, and Mr. and Mrs. G. W. A. Johnson, of Birmingham, who were the guests of Mr. and Mrs. J. H. Washington; Mr. W. F. Watkins and Miss Alice Watkins, of Montgomery, Ala.; Mrs. John Samples, Cincinnati, Ohio, and Bishop George W. Clinton, of Charlotte, N. C., were also among the guests.

CAUGHT BY VENUS. ATTORNEY ARMOND W. SCOTT MARRIED.

Attorney Armond W. Scott, one of the most prominent and successful members of the bar, was married in Philadelphia, Pa., last week to Miss Estella A. Harris, of this city. Miss Harris is one of the most accomplished young ladies in this city. She is not only a musical artist, but possesses superior talent in domestic art. The announcement of the marriage of these two young people was a surprise to the members of the bar and their numerous friends.

When Attorney Scott left his office last week no one knew of his destination but his most intimate friend, Attorney M. T. Clinkscale, who kept everyone in darkness, carrying out implicitly the instructions given him by Attorney Scott before he had carried out this matrimonial design.

While in Philadelphia he was accosted by his old friend, Dr. James E. Sheppard, of North Carolina, who accused him while standing in the depot, of being on a peculiar mission. Attorney Scott in the meantime introduced Miss Harris to Dr. Sheppard, who thought that she was a Philadelphian, and has

not been made the wiser, and will not be until he reads The Bee this week.

The bride and groom returned to this city Sunday, the groom presumed everybody was in ignorance of his marriage till he met a Bee representative, who immediately congratulated the young benedict, which was a surprise to him.

Miss Harris is a native of Washington, having been educated in the public schools of this city. She is an accomplished pianist as well as proficient in domestic art. Attorney Scott is from Wilmington, N. C. He came to this city about four years ago, and by industry and perseverance he has built himself up a good practice. There is not a member of the bar more persevering than Attorney Scott. He is mainly in his department and is steadily advancing in his profession. He and his bride are stopping at 1442 Pierce Place northwest, where they are comfortably located.

His mother and friends extended their congratulations by sending many handsome presents.

Lawyer Armond W. Scott and Miss Estella A. Harris, of 1442 Pierce Place northwest, were married on the first day of this month in the city of Philadelphia, at the residence of Mr. and Mrs. Fields Johnson, at 326 West Thirty-first street, by the Rev. J. B. Randolph. They afterward went to New York city for a few days, where they were the guests of Mr. and Mrs. Rosier Johnson.

RALLY AT THE BEREAN BAPTIST CHURCH.

Twice each year that is upon the first Sunday of May and November, respectively, stated "rallies" are held under the auspices of the officials of the Berean Baptist Church. The proceeds from such rallies are devoted to eliminating as far as possible the bonded debt of the church. The rally last Sunday was very successful financially, over three hundred dollars having been raised, embracing the contributions of only a few "clubs" of the church, the larger number having yet to report. The pastor, Dr. Rivers, preached at the morning service. Dr. Waldron, pastor of Shiloh Baptist Church, in the afternoon, and Dr. Thomas J. Brown, rector of St. Luke's Protestant Episcopal Ch., at the evening service. The full choir of St. Luke's Parish furnished the music, under the direction of Mr. W. H. Carter. Unfortunately indeed were all missed an excellent sermon, and magnificently rendered music.

MUSIC AT ST. LUKE'S PROTESTANT EPISCOPAL CHURCH.

The lover of music, and even critics of this art, genuine or otherwise, should pay a visit to St. Luke's Church at any Sunday morning service, and hear the reorganized and augmented choir, under the direction of Mr. William H. Carter, is composed of some of the most eminent colored local vocalists in this city, embracing the Misses Nettie Murray and Guy, soprano; Mrs. Smoot, contralto, and other competent voices, forming an incomparable church musical organization.

SICK DOCTORS.

Dr. F. J. Shadd is improving and will no doubt resume his practice shortly.

Dr. Edward Scott is himself again, and has resumed his practice.

Dr. West is doing as well as could be expected.

Dr. Samuel M. Peirre is himself again.

O'Sullivan's FINE OLD NECTAR RYE WHISKEY BLEND BOTTLED BY F. O. SULLIVAN, 1250 SEVENTH ST., NORTHWEST.

The first discovery of coal was in 1679 on the Illinois River near Ottawa City by a Jesuit priest.

William Custalo, colored, of Richmond, Va., known as Uncle Billy, died recently. He for more than thirty years conducted a saloon at the corner of 7th and Broad streets. He was highly respected by both white and colored people.

Read The Bee. Divorces granted in this country from 1887 to 1906 numbered 1,300,000.

Mr. B. H. Warner, of this city, expects to be a candidate for Representative Pearce's place as Member of Congress from Maryland.

Prof. E. H. Larkins, astronomer of San Francisco, Cal., claims that marriage is a crime and it simply holds women in bondage and hampers her development.

Alexandria, Va., has a 'pallbearers' union, like Chicago. The members are colored.

John Temple Graves, of Georgia, in a recent interview in part synopsis, characterized Roosevelt as a sincere disciple of Democracy.

The Black Pope, as the Jesuit Order is called, will soon visit the Order in America.

The new standard yardstick was started in 1897. Every ten years it will be further examined. If it varies by a millionth part of an inch it will be rejected; otherwise it will become a standard.

BANDANA SUPPER

ST. LUKE'S P. E. CHURCH.

A grand Musical and Bandana Supper at True Reformers' Hall, Twelfth and You Streets, Northwest, Thursday evening, November 21st, 1907, under the auspices of the Parish. Music by the Lyric Orchestra, from 8 to 12 o'clock p.m.

General admission, 25 cents. Come one! Come all! Everybody welcome.

MR. LEON DE VOUX, THE WORLD'S GREATEST PHOTOGRAPHER.

The Bee begs leave to introduce the citizens of Washington Mr. Leon De Voux, the world's greatest photographer, who has traveled very extensively, and has given satisfaction in the profession of which he is the master. Colored Americans have largely depended upon white photographers to do their work and accept it if it does not satisfy them. There is not a white photographer of any note in the city that will permit the photo of a colored American to be placed upon exhibition.

Mr. De Voux is an expert in his profession. He makes his pictures the exact likeness of his patrons. He has leased for a term of years one of the most convenient and commodious places near the Fourteenth Street Bank, 1359-61 You streets, near the corner of Fourteenth street northwest. Mr. De Voux will have upon exhibition some of his own work as an evidence of his artistic workmanship. His photos are as natural as the person himself. He means to give his patrons entire satisfaction, and if he fails, your money is refunded.

There is no artist in the United States who has made the reputation that he has. Mr. De Voux wants the world to know that his studio will be opened to the public on or about Wednesday, October 9th, and the citizens of Washington should avail themselves of the opportunity of the great offers that he is making. The public should inspect his studio and select the style or character of pictures desired.

MONEY REFUNDED.

If you are not satisfied with your pictures, your money will be refunded. This proposition alone ought to be sufficient to assure the public that Mr. De Voux is a superior artist. He makes you look like a natural image. So artistic is his work. There is no photographer in this country who has traveled as Mr. De Voux. He has in his travels acquired great knowledge in photo-making. His work has been pronounced superior to any artist in his line of business. It will not cost you anything to call and inspect his studio. It will not cost you anything if your photos don't suit you.

Artists are known by their work. They are appreciated for what they can do. This city has been in need of a first-class photographer for years. Colored Americans may have their pictures placed where they will be seen and admired. Mr. De Voux claims to be able to do any kind of work in this line of business.

There is no flattery about his work. He portrays the person in his natural shape and at the same time makes the image to be admired.

His studio opened October 7th, and if the public wishes to inspect first-class work, Mr. De Voux is the artist that the people of this city have been looking for these years.

His studio will have its opening October 7th, and be continued for thirty days, to enable the public to be convinced that Mr. De Voux is the artist that the people of this city have been looking for these years.

Mr. De Voux has succeeded in securing the services of Mr. William Hoag, the finest developing and printing artist identified with the colored race, as assistant and manager. He was formerly with Sexton and Maxwell of St. Louis, Mo.

Artists of other nationalities do not cater for colored citizens' trade. The Bee presents a man who is superior to any artist in the country, no matter to which nationality he belongs.

Call and inspect his work. His studio is 1359-61 You street northwest.

BETTER PROTECTION FOR NEGRO LABORING PEOPLE

Every negro man and woman who reads this place, should acquaint themselves with the principles of the I. L. U. Grand Lodge of Dayton, Ohio, and join it at once.

There is no other Lodge in the world like it. Its principles are to protect and uplift all laboring people, men and women, colored and white alike, no color or discrimination is allowed under its protecting banner.

The I. L. U. Grand Lodge owns and publishes THE I. L. U. HOME JOURNAL, a 16 page monthly publication of great interest to our people. An I. L. U. Membership Book will be recognized and accepted by any I. L. U. Subordinate Lodge in the world. Each I. L. U. member has the privilege of buying I. L. U. Grand Lodge Stock from \$1.00 up to \$100.00, which pays 8 per cent interest (or more); hence all profits made from the Publishing and Home Office business go right back in cash dividends to the members who own stock.

Any honorable negro man or woman who lives where so I. L. U. Subordinate Lodge is now established, can join the I. L. U. Grand Lodge and thus enjoy all these benefits.

We want a leading negro man and woman to become our Representative in each and every locality throughout the country. It is not necessary that you be a laboring person to become our Representative, but we want honest negroes who wish to help advance their Race. This work can be easily done during your spare time, and you will get big money from us by a little hustling after hours in helping to introduce and extend the I. L. U. Grand Lodge. If you meet with success in your home locality, you will stand in line for a steady traveling position with a good salary and all expenses paid.

This space is too small to tell you one-half of the benefits of the I. L. U., so you must write and we will tell you the rest by mail.

Write us at once and learn all about this Order. Send 10 cents to pay postage on printed matter and free Constitution which we shall send you. Address:

THE I. L. U. GRAND LODGE, 107, I. L. U. Bldg., Dayton, O.

ed; otherwise it will become a standard. Benjamin Cartwright, of Stroudsburg, Pa., twenty-one years old, has been sentenced to one hundred and fifty-five years for murder in the second degree by Judge Staples.

BELIEVE IT NOT.

Introduction.

1. Dear girls if the young men will say you are pret-ty, don't be - lieve it,
 2. Now boys if you are told all girls are en - tranc-ing, don't be - lieve it,
 3. When friends pre - sent a dead sure thing to in - vest in, don't be - lieve it,
 4. If hub - by gets home late he'll blame it on busi - ness, don't be - lieve it.

They think they have the win - ning way But be care - ful they don't mean it,
 Some wear false teeth, false shape, false curls To be - witch you, they don't mean it,
 If they de - clare the scheme will bring Lots of mon - ey, they don't mean it,
 The same ex - cuse quite old and time Used for a - ges, he don't mean it.

They'll squeeze your hand tight like a glove And crave to share your lot,
 If to your face they're "strict - ly so" Like some dear lit - tle tot,
 They have de - signs up - on your cash 'Tis noth - ing but a plot,
 He'll give you sweets and things like that To soothe your tem - per hot.

Copyright, MCMXXI, by John Z. Spoerl. New York.

They'll swear you are their on - ly love, Be wise, be - lieve it not.....
 And say all pleas - ure they fore - go, Be wise, be - lieve it not.....
 So take ad - vise and don't be rash, Be wise, be - lieve it not.....
 And prom - ise shoes, new dress, new hat, Be wise, be - lieve it not.....

Chorus.

So don't be - lieve all things you hear, Or you may go a - stray, The sweet - est smile of
 hides a sneer, The a - the - ist may pray. When some one treats you ex - tra nice And tries to
 flat - ter you, Why list of course to their ad - vice, but don't be - lieve it true....

TABLE DELICACIES

RECIPES FOR DISHES OF ALL DESCRIPTIONS.

Lobster Faci Will Be Appreciated on the Luncheon Menu—Delicious Deviled Kidneys—Best Method of Preparing Soup From Onions.

Lobster Faci.—This is delicious to serve at card parties or luncheons. Remove the meat from a large boiled lobster; then pick into flakes. Place one pint strained tomato pulp in stewing pan and when hot add one tablespoon of corn-starch, wet with a little cold water; two tablespoons of butter, one level teaspoon wet mustard, one teaspoon of scraped onion and the lobster. Simmer until creamy, then fill paper cases. Strew with brown bread crumbs. Serve hot. Canned lobster can be used.

Frozen Beets.—If you want a real delicacy try this: Boil the amount of sugar beets required. When boiled peel, slice and cover with vinegar. Allow them to freeze over night. Serve with ice slightly melted, and you will be surprised to find they have imbibed the flavor of rare old wine.

Quick Dessert.—Take small round milk crackers, butter and toast a light brown; put two crackers in each plate; stew, then seed a half pound of prunes; sweeten to taste. Place prunes on crackers and pour whipped cream over all; add a slice of lemon to each plate.

Japanese Salad.—Cut the tops off tomatoes; remove the pulp, fill in with potato salad with the usual French dressing. Season with onion chopped fine. Put on ice to chill. Serve on lettuce leaves.

Savory Cakes.—Make a rich puff paste. Cut into rounds. Fill the rounds with a mixture of grated cheese, moistened with tomato sauce. Bake in a quick oven and cut into fingers.

Deviled Kidneys.—Split sheep kidneys in half, with the skin and white membrane removed. Put two ounces of butter in a saucepan and, when hot, put in the kidneys, dust with salt and pepper, and cook quickly. Pour over this a little tablespoonful of onion juice, tablespoonful of Worcestershire sauce and tablespoonful of sherry, some bread and stilton cheese.

Sea Foam Candy.—To two cups brown sugar add enough water to soak it and boil until it spins a thread. Have the white of one egg beaten stiff on a platter; pour the candy over it, and beat rapidly until it creams, smooth out and cut.

Onion Soup.—Slice a large onion and fry in hot lard. Add flour for thickening, put in a quart of water and let boil 10 minutes. Season with salt,

pepper, and a few chopped sorrel leaves. Beat the yolks of two eggs; stir them in the whole, and pour over slices of toast.

Fig Preserves.
 Take the figs when nearly ripe and cut across the top in the form of a cross. Cover with strong salted water and let stand three days, changing the water every day. At the end of this time cover with fresh water, adding a few grape or fig leaves to color and cook until quite green. Then put again in cold water, changing twice daily, and leave three days longer. Add a pound granulated sugar to each pound of figs, cook a few moments, take from the fire and set aside two days. Add more sugar to make sweet, with sliced and boiled lemon or ginger root to flavor, and cook until tender and thick.

To Wash Mirrors and Glass.
 Put a few drops of ammonia on a moist rag and make short work of it. If the glass is very dirty, put some finely powdered whiting in a small piece of muslin. Dab it over the glass. The dirtier the glass the more whiting is required. Then smear evenly with a damp rag and let it remain until dry. Then rub off with chamois. If alcohol be used instead of water the glass will receive a fine polish.

To Heat Milk.
 Put the milk in a small tin can, such as an empty cocoa can, and place it in a basin of hot water. Move it rapidly around, and in a short time the milk will be warm enough. When one has a gas or gasoline stove it would be better to heat water over the blaze and then to put milk directly over fire, where it is apt to boil and become unfit for baby's stomach.

French Stew.
 One pound of meat, one small head of cabbage, one onion and one quart of tomatoes. Run the meat through a meat hopper or cut in small pieces, cut cabbage, tomatoes and onions fine. Canned tomatoes may be used if fresh ones are not available. Season to taste. Just before serving stir one tablespoon of flour in a little water till it is smooth and add.

Keep Kettles Dry.
 The inside of kettles should either be dried whenever the contents have been emptied, or they should be hung up or stood upside down in a dry place. A few drops of water, if allowed to collect at the bottom of the kettle, soon cause spots of rust, and these in time generate into holes.

Escalloped Meat Scraps.
 A good way to use left-overs of any delicate meat such as chicken, veal, etc., is to chop the meat fine, add a can of peas, season well and sprinkle with cracker crumbs and pieces of butter. Pour cream over all and bake until a golden brown.

FASHION'S FOIBLES.

Among the novelties in hat trimmings are arum lilies in white velvet, with skeleton leaves of white net veined with silk.

Vulture and carsoar plumes, with sweeping Amazone or pleurause in ostrich falling below the shoulder, promise to be much worn.

Dainty little handkerchiefs to match the tailored costumes worn are now being carried by the French women. There are new arrangements of checks and stripes, and the delicate shades make the handkerchiefs quite expensive. Where there is a colored border the initial is on a solid ground of white.

A charming evening frock of creamy chiffon had large woven satin dots and a deep border of great pink and yellow roses in pale shades. This was worn over a shell pink supple taffeta slip, which was veiled by the same shade of chiffon.

The dyed laces will be greatly used. A gown of silk for an afternoon costume is always in good style for the elderly woman. Faille louisine, moire and the soft taffetas are among the best to choose from.

The embroidery laces are interesting worked in colors to match the ground and combination of several colors.

The Oriental and Persian effects are sought.

The soutache lace resembles soutache braiding applied to net ground, yet in many ways it is much more attractive.

Fillet laces are shown in widely diversified effects. There is fillet in colors, with gold and aluminum grounds, and fillet antique, and so on indefinitely.

These materials may be secured at a reasonable price, and are all rain-proof. There is a new process em-

which has proved most satisfactory.

The rage for Shantung and tussor shows no sign of abating, and these fabrics are being dyed in the most wonderful shades of raspberry, Copenhagen blue, myrtle green and old gold. They are equally fashionable in their natural colors.

HER HEELS.

A Trustworthy Indication to a Girl's Character.

"If you want to know whether a girl is slovenly or not, look at her heels," said the wise woman to the young man who was contemplating matrimony. "Her gown may be pretty, her hat becoming, her neckwear trim and neat and her gloves well-fitting, but if her heels are run over, look out for her. Her trimness in other respects denotes that she is neat spasmodically; that she will make an effort to keep things tidied and in order only when she is urged to do so because she has some special provocation. But by nature she is slack. The man who marries a girl with perpetually run-over heels will find her coming to the breakfast table as soon as the honeymoon is over in a tumbled kimono and with her hair in curl papers. She never will be a good housekeeper."

"On the other hand, I've seen girls who maybe did not have such a trim appearance, whose hair was apt to be a little flying, but whose heels rested firmly on the ground, and never did I discover they were in the slovenly class. Maybe they were not careful enough of outward appearances, but they kept their buttons sewed on, rips repaired, spots sponged off and their rooms in immaculate order."

ED. PINAUD'S HAIR TONIC (EAU DE QUININE)

LILLIAN RUSSELL, the beautiful actress, says:

"Without question, an indispensable adjunct to a lady's toilet table. Exceedingly meritorious in preserving the hair and causing it to retain its luster."

ATTORNEY GILCHRIST STEWART.

ANSWERS HIS CRITICS

It is very seldom that I pay any attention to newspaper comments upon my actions on public questions or to newspaper imaginative comments upon my speeches on such questions. As a public servant my actions upon vital questions of interest to the race and to the public have always been guided and dictated to by my conscience and by my sense of public duty. When such actions meet the approbation of the public and my friends, I am glad; where they do not I am sorry; but I am not at any time moved by these considerations and have long ago become immune to newspaper criticism when fighting for what I faithfully thought was the best interest of my race.

But when such a flagrant error is stated by a newspaper, purporting to represent the race, as the statement in the editorial columns of the New York Age of October 17 in commenting upon my support of fusion in the Republican County Convention, and it deliberately and unqualifiedly issues a false statement for the purpose of deceiving the public and its readers, I am constrained to depart from my usual rule and make a few comments upon the same in order that none of my friends throughout the country may have any doubt as to where I stand.

The Age, in its editorial, said: "Mr. Stewart in the New York County Republican Convention, with much eloquence and emotion, urged the other colored delegates in the convention to stand by Congressman Parsons and to give him their unqualified support." I said nothing of the kind. I supported fusion in my aldermanic and assembly district, and made a speech in behalf of fusion in nominating our candidate for alderman before the County Convention because I thought that it was the best policy for the party in the county, and not because Mr. Parsons supported it. Nor did I ask a single colored delegate in the convention to support Mr. Parsons. I did not mention the color question in my speech. I supported it not because Congressman Parsons supported it, but in spite of the fact that he supported it.

I want to say to the editor of The Age, "Kill no fatted calf, and utter no joyous note of Hallelujah" for my position is unequivocally just where it has always been. I am opposed to any and every force in this State that is against the restoration of the discharged soldiers of the Twenty-fifth Infantry to the army with all of their rights and privileges of previous enlistment. It was in the County Committee of this State that I introduced and had passed a resolution calling upon the President to rescind his order; I enlisted at that time over a year ago—in a fight for this glorious black battalion. When I saw the strong men of Companies B, C, and D turn in their guns at Fort Reno, shedding tears, and their frames sobbing with sorrow over their unjust and cruel treatment, I consecrated my poor abilities and service to do everything in political fields of activity and otherwise to see that justice was meted out to them. As I looked at their discharges at Fort Reno, which showed that they had fought on the snow-covered prairies of the Dakotas, in the tropical swamps of Cuba, upon the plains and mountains in the Philippines; yes, wherever the flag floats, they have responded loyally to the call of the American Republic to arms, whenever its flag was in jeopardy, winning battles without cannon, crossing rivers without bridges, making forced marches without shoes, bivouacking without spirituous liquors or hard-tack, representing the acme of patriotic black citizenship in the Republic, I realized more fully the great wrong perpetrated against them.

No colored man who would back up one iota in the fight for this black battalion should be branded with the scarlet letters of the traitor. Let timid doctrinaires and theorists depart from among us, to carry their servility and their miserable fears elsewhere. And let every patriot Negro stand firm upon this question.

You needed no formal announcement to the public, Mr. Editor of The Age, that Editor Fortune had severed his connection with the New York Age. Any one who read the editorial on the affair at Brownsville would know that it would be impossible for a race-loving man as Fortune to pen such a traitorous article. Undoubtedly he would have seen his right hand cut off before doing it. One might shut his eyes, and he would think that it was an editorial from some of the Bourbon cracker yellow journals of the South.

No, Mr. Editor of The Age, if Mr. Parsons is not in favor of the restoration of the black battalion to the army, I am against Congressman Parsons today just as much as I ever was. I am against a man in this county or country in the Republican party or in any other party who is not in favor of meting out justice to these soldiers of my race and to my race. I would just as soon go into Congressman Parson's district tomorrow, take the stump against his election to Congress or any other Congressman in this city who in the coming session of Congress does not show that he is with us upon this question.

I hope this is as emphatic as I can make my position known, and that you and any of my friends throughout the country may have no doubt as to where I stand upon this matter. No doubt would ever have arisen had it not been for your misleading editorial.

I shall be in Washington this winter aggressively fighting this battle before Congress; when the primaries occur in March for the election of delegates to the National Convention I shall be fighting before the electorate for a nominee to the next National Convention who will state his position unequivocally that he is in favor of giving justice to these soldiers. Upon this platform I have stood and shall always stand. Don't go into any unnecessary spasm of joy, Mr. Editor of The Age, over any flights of your own imagination regarding my changing. When I change upon this question or cease to aggressively fight for every right due my race, then you can pull off your shoes and dance a two-step on the third rail of the subway without personal injury.

Yours for the race, and for every man who is with the race, Gilchrist Stewart.

To Clean Delicate Fabrics. Soiled places or spots can be removed from laces, silks and delicate fabrics by making a paste of talcum powder and aqua ammonia. Put in the powder in a cup, three or four teaspoonfuls and mix to a thin paste with the ammonia. Lay the goods on a cloth; cover the soiled place with the paste; rub with a soft cloth and let stand till dry. Then brush or shake off the powder.

Darning Curtains. Take common mosquito netting and sew on the hole. Draw the thread in the usual way through the meshes, skipping every other mesh so that when you darn crosswise you will have meshes to darn through. No matter how large the hole is, you can darn it evenly and in good shape and save time.

To Serve a Plain Custard. Plain cup custards are made more attractive if a preserved strawberry, a candied cherry or a spoonful of bright jelly or marmalade is placed upon the top of each cup before serving. Tiny mounds of whipped cream are not an unwelcome addition.

FULL DRESS AND TUXEDO SUITS. \$1.00—For Hire—\$1.00. Julius Cohen, 1104 7th Street, N. W.

ST. LUKE HALL, HEADQUARTERS L. O. of St. Luke, Richmond, Virginia.

FOR ALMOND COFFEE BREAD.

Ingredients Should Always Be Prepared Over Night.

To one quart sifted wheat flour add a tablespoonful salt and sift again. Heat a cup and a half of milk or part milk and part water to the boiling point; add a tablespoonful butter and take at once from the fire. Cool to lukewarm, dissolving the butter meantime by stirring, then add to the flour mixture. Dissolve half a compressed yeast cake in a little water, add; beat all very hard and place where it will keep warm and rise over night. In the morning blend a beaten egg with the dough and roll the mixture into pieces the size of a finger and the length of the width of buttered biscuit tin. Place the rolls close together, so as to make almost like a sheet. Let the dough rise to almost double its original thickness, then spread the top thickly with butter; sprinkle with granulated sugar, and on the sugar put a thick layer of blanched and chopped almonds. Bake in a moderate oven about half an hour. A few raisins and currants or chopped nuts may be added to the bread dough when the egg is put in, if desired. When this bread is baked and eaten warm the sheet readily breaks apart, which is better than having to cut it.

TO CLEAN SEWING MACHINES.

Care Bestowed on Instrument Will Be Amply Repaid.

Sewing is not half as hard as some people find it if the sewing machine is kept in good running order. When the sewing machine works hard and heavily take the needle and shuttle out and give every joint and bearing a generous bath of gasoline. Of course there should not be a lighted lamp or fire of any kind in the room. Turn the wheels briskly for a few moments to enable the gasoline to penetrate every part and to loosen and wash away the old oil and grime. Then clean it all away. When all the grime and oil has been removed, oil with proper lubricating oil, running the machine for two or three minutes before inserting the needle. Now, with a piece of chamolais skin, wipe away all superfluous oil. It is a pleasure to sew on a machine treated in this manner.

PETER GROGAN,

817-19-21-23 Seventh Street. Bet. H and I Sts.

CALLS DR. MCKINLEY A NEGRO DIVORCED WIFE OF PHYSICIAN SAYS HE DISOWNS RACE. SUES TO REGAIN HER CHILD. Alleged Former Husband Makes Little Girl Dislike Negroes.

From the Chicago Tribune.

Dr. J. Frank McKinley, 157 Oakwood Boulevard, will be the defendant today in a suit brought by his former wife, Mrs. Maud Cuney Hare, charging that he is a Negro, though posing as a white man, and that he is attempting to bring up their seven-year-old daughter, Vera, to believe she is of Spanish blood.

Mrs. Hare, who is the daughter of N. Wright Cuney, said to be one of the brilliant men of the colored race, asks for the custody of the child, now under her former husband's care for nine months of the year. She asserts in the petition that he has made every effort to conceal his real identity and hers, as well as that of the child.

She declares Dr. McKinley is the son of a white father and colored mother. In order to broaden his practice, it is charged in the petition, he threw off his race when he came to Chicago, shortly after they were married, in 1898. He had attained a reputation as a physician among the colored people of the South, but, the bill declares, received little financial reward.

Urged to Ignore Her Race.

Mrs. Hare charges that he insisted she should not recognize any of her colored friends in the street or permit any of them to call on her at their residence. When the child was born, she asserts, he filled out the birth certificate to the effect that it was of "American-Spanish" blood, leaving blank the space to indicate it might be of Negro parentage.

Mrs. McKinley left her husband four years after their marriage, declaring she would not give up her race for him. In 1904, when she was in the South, he obtained a divorce, with the custody of the child, as she was not present to make a defense. When she heard of the divorce she came to Chicago.

Action was begun then by her to secure possession of the child, but a compromise was effected by which she was to have possession of the child for three months in the year. This plan of custody was carried out until October 1, when Mrs. Hare, who had married again

in August, 1904, refused to turn her daughter over to her former husband.

Dr. McKinley married again last spring, the bride being Miss Caroline I. Ennis. In a letter to his former wife, it is alleged, he said his second wife was forty-five years old, had an income of \$250 a month, and was worth \$25,000.

Three Specific Charges Are Made.

These three specific charges are made against Dr. McKinley in the petition.

He held his wife before the public as of Spanish blood and refused to permit her to have any association with her companions or friends of her race.

He is bringing up the child as a white, making it believe it is white, and instilling a hatred in the child against its race.

He has married a woman of the white race in whose care the child is placed by him.

N. Wright Cuney, father of Mrs. Hare, was collector of customs at Galveston, under President Harrison. He was a leading colored politician of the South, and was a member of the Republican National Committee.

Mrs. Hare is a graduate of the Boston Conservatory of Music and for a year was head of the department of music in the Texas State Normal School.

Judge Barnes will hear the case this morning. The counsel for the defense will be E. E. Wilson and Lang Williams, both colored lawyers. Walter E. McCormack and Edward J. Stevens will represent Mrs. Hare.

FORD'S HAIR POMADE

Formerly known as "OZONIZED OX MARROW"

It straightens kinky or curly hair.

It is the only hair pomade known as "OZONIZED OX MARROW" and is the only one that makes the hair soft, pliable and easy to comb. These results are obtained by the use of the "OZONIZED OX MARROW" pomade.

It is a perfect hair restorative, it prevents dandruff, relieves itching, invigorates the scalp, stops the hair from falling out or breaking off, makes it grow and nourishes the roots, gives it new life and vigor. Being easily absorbed, it is not greasy or sticky, it is a perfect hair restorative, it prevents dandruff, relieves itching, invigorates the scalp, stops the hair from falling out or breaking off, makes it grow and nourishes the roots, gives it new life and vigor.
